

and soils, water resources, biological resources, and cultural resources. Consultation with applicable regulatory agencies has been concluded.

Executive Order (E.O.) 11988, Floodplain Management, requires that if an agency finds that the only practicable alternative for an action requires siting in a floodplain, the agency shall design or modify its action in order to minimize potential harm to or within the floodplain. Under E.O. 11990, Protection of Wetlands, an agency must avoid undertaking new construction in wetlands unless the agency finds that there is no practicable alternative to such construction. The Army determined that elements of the proposed action must be located within portions of the floodplain and wetlands at MOTSU. Accordingly, a FONPA—i.e., a description of the anticipated impacts and reasoning why the only practicable alternative is to locate the proposed action within floodplains and wetlands—has been prepared and included in the FEIS.

The FEIS is available on the project website at: <https://www.amc.army.mil/Resources/Environmental-Information/>. This notice that the FEIS is available to the public starts a 30-day waiting period. No sooner than the conclusion of that waiting period, the Army will publish a Record of Decision.
