SUPPLEMENTARY INFORMATION:

Title: The 2001 Hazardous Waste Report (Biennial Report), EPA ICR Number 0976.10; OMB Control Number 2050-0024. This is a request for an extension of a currently approved collection.

Abstract: Large quantity generators of hazardous waste and owners/operators of hazardous waste facilities must complete, under the authority of RCRA sections 3002 and 3004, a report every other year on the amount of waste they generate and how it was managed. EPA uses the information to understand waste management practices, to expand its database of information for rulemakings, and to monitor compliance with regulatory requirements.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published June 23, 2000 (65 FR 39142). We are implementing all of the recommendations described in the June 23, 2000 notice. Nine comments were received on the June Notice, including a comment from the Tribal Association on Solid Waste and Emergency Response (TASWER). TASWER asked that a data element be added to the Biennial Report that would identify RCRA facilities on or adjacent to Indian Country and Alaska Native Villages. We have begun discussions with TASWER to see how their information needs might be met by the Biennial Report or other means. However, this process

cannot be completed in time to make changes to the 2001 Biennial Report.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 19.49 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Large Quantity Generators and Treatment, Storage, and Disposal Facilities.

Estimated Number of Respondents: 10,157.

Frequency of Response: Biennially.

Estimated Total Annual Hour Burden: 195,214 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$26,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses listed above.

Please refer to EPA ICR No. 0976.10 and OMB Control No. 2050-0024 in any correspondence.

Dated: September 28, 2000.

Director, Collection Strategies Division.
