This notice also lists the following information:

Title of Proposal: Assessment of Native American, Alaska Native and Native Hawaiian Housing Needs.

Description of the Need for Information and Proposed Use: The Department is conducting this study under contract with The Urban Institute and its subcontractors, NORC, Econometrica and SSI. The project is a housing needs assessment that will produce national level estimates of housing needs in tribal areas in the

United States. HUD provides funding through several programs to Native American and Alaskan Native populations, most notably through the Indian Housing Block Grant. The level of housing need is of particular interest to HUD and the Congress has mandated this study. HUD has not published a study on housing needs, in general, for this population since 1996. The surveys covered by this data collection include a household survey of native Hawaiians, living in Hawaii, served by the Department of Hawaiian Home Lands.

Members of the Affected Public: Native Hawaiian households on the

DHHL waiting list: 500 surveys total, 10% by telephone, the remainder in-person.

Native Hawaiian households residing in the home lands (potentially): 500 surveys total, 10% by telephone, the remainder in-person.

Estimation of the Total Number of Hours Needed To Prepare the Information Collection

Including Number of Respondents, Frequency of Response, and Hours of Response:

Respondents	Number of respondents	Number responses per respondent	Average burden/response (in hours)	Total burden (in hours)
Household Survey (waiting list)	500	1	45 minutes (.75 hour).	375
Household Survey (home lands residents)	500	1	45 minutes (.75 hour).	375
Total				750

Status of the Proposed Information Collection: Pending OMB approval.

Authority: Title 13 U.S.C. Section 9(a), and Title 12, U.S.C., Section 1701z-1 *et seq.*

Dated: July 24, 2012.

FOR FURTHER INFORMATION CONTACT: Jim Douglas, Senior Advisor, Public Safety,

Resource Protection, and Emergency Services, (202) 208-7754.

SUPPLEMENTARY INFORMATION: Federally recognized tribes are invited to attend one or more of the consultation and informational sessions regarding the Interior Fire Program Assessment 2012.

• In their report on the Department of the Interior, Environment, and Related Agencies Appropriation Bill for fiscal year 2012, the House of Representatives Committee on Appropriations stated, in part, “The Committee is aware of the duplication that exists in the Department of the Interior’s wildland fire programs, with multiple parallel organizations in four bureaus, each having nearly identical administrative organizations at the national, state, and regional levels, and at the local level.” The Committee went on in the report to direct the Department of the Interior to “complete an assessment of the Department’s wildland fire management programs in order to determine the most cost effective, efficient means of providing comprehensive fire management services in support of the Departmental and bureau missions and to better direct scarce resources from duplicative administrative management organizations to focus resources on the protection of lives, property and natural and cultural resources.” The Committee asked for a set of options for restructuring and conducting the wildland fire management programs.

• In response to the Committee’s report, the Department of the Interior contracted the services of

PricewaterhouseCoopers (the Assessment Team) to conduct an assessment considering the specific areas of wildland fire management referenced in the report to include, “the Department and bureau roles and responsibilities for administration and management of preparedness, suppression operation, hazardous fuels reduction, burned area rehabilitation, fire facilities, fire science, community assistance, and budget and finance functions.” The Assessment Team was also asked to, evaluate existing alternative models for service delivery, including the Alaska Fire Service, state, and other countries and identify resources that can be redirected to on-the-ground services through reorganization of its wildland fire management programs.”

• This review is ongoing and has included the Office of Wildland Fire, Bureau of Indian Affairs, Bureau of Land Management, National Park Service, Fish and Wildlife Service, the U.S. Geological Survey, and the Bureau of Reclamation. Although the USDA Forest Service is not included in the review, they have been consulted and interviews have been conducted as they are a major partner in the Federal wildland fire management program.

• On June 19, 2012, Task 1, the identification of potential opportunities, was completed; and Task 2, development of recommendations, began. As part of Task 2, and in support of the Consultation and Coordination with Indian Tribal Governments

requirements outlined in Executive Order 13175 and the Secretary of the Interior's Order No. 3317, the Department of the Interior is conducting three Tribal Consultation sessions during the week of August 26, 2012.
