

Location: The public workshop will be held at the Food and Drug Administration, White Oak Campus, Bldg. 2, Central Shared Use Building, rm. 2047, 10903 New Hampshire Ave., Silver Spring, MD 20903.

E-mail your registration information (including name, title, firm name, address, telephone and fax numbers) to the contact person by February 25, 2010. There is no registration fee to attend the public workshop. Early registration is recommended because seating is limited. There will be no onsite registration.

Non-U.S. citizens are subject to additional security screening, and they should register as soon as possible. If you need special accommodations due to a disability, please contact Sonna Patel-Raman by February 25, 2010.

SUPPLEMENTARY INFORMATION: The goal of the workshop is to understand and review the current clinical practices for these assessments in the pediatric population and to discuss options for standardized practices that may be used and validated during pediatric device trials. There are several neurological and neurocognitive assessments used in adults and pediatric patients. However a lack of sufficient data and validated measures, due to the limited pediatric population, has restricted growth in the field. Several peer-reviewed journal articles acknowledge that there are no standards for the type of test administered or the frequency of the assessments. A standardized practice for evaluating this critical area will benefit the pediatric cardiovascular device community by providing a clear understanding of safety and effectiveness of these devices in the pediatric population. Assessments that demonstrate a real clinical benefit can provide useful information to patients, their families, and the clinical communities when weighing the risk involved. Invited experts will address the types of pediatric cardiovascular devices being developed, with a particular focus on mechanical circulatory support, current types of

clinical assessments used in the pediatric population, and challenges that face this community. After each presentation, there will be a short question and answer session allowing workshop participants to interact with the speaker. A concluding session will allow for additional interactions with speakers.

Background information on the public workshop, registration information, the agenda, information about lodging, and other relevant information will be posted, as it becomes available, on the Internet at <http://www.fda.gov/MedicalDevices/NewsEvents/WorkshopsConferences/default.htm>.

Title of Proposal: Ginnie Mae Multiclass Securities Program Documents. (Forms and Electronic Data Submissions).

OMB Control Number, if applicable: 2503-0017.

Description of the need for the information and proposed use: This information collection is required in connection with the operation of the Ginnie Mae Multiclass Securities program. Ginnie Mae's authority to guarantee multiclass instruments is contained in 306(g)(1) of the National Housing Act ("NHA") (12 U.S.C.

1721(g)(1)), which authorizes Ginnie Mae to guarantee “securities * * * based on or backed by a trust or pool composed of mortgages. * * *” Multiclass securities are backed by Ginnie Mae securities, which are backed by government insured or guaranteed mortgages. Ginnie Mae’s authority to operate a Multiclass Securities program is recognized in Section 3004 of the Omnibus Budget Reconciliation Act of 1993 (“OBRA”), which amended 306(g)(3) of the NHA (12 U.S.C. 1271(g)(3)) to provide Ginnie Mae with greater flexibility for the Multiclass Securities program regarding fee structure, contracting, industry consultation, and program implementation. Congress annually sets Ginnie Mae’s commitment authority to guarantee mortgage-backed (“MBS”)

pursuant to 306(G)(2) of the NHA (12 U.S.C. 1271(g)(2)). Since the multiclass are backed by Ginnie Mae Single Class MBS, Ginnie Mae has already guaranteed the collateral for the multiclass instruments.

The Ginnie Mae Multiclass Securities Program consists of Ginnie Mae Real Estate Mortgage Investment Conduit (“REMIC”) securities, Stripped Mortgage-Backed Securities (“SMBS”), and Platinum securities. The Multiclass Securities program provides an important adjunct to Ginnie Mae’s secondary mortgage market activities, allowing the private sector to combine and restructure cash flows from Ginnie Mae Single Class MBS into securities that meet unique investor requirements in connection with yield, maturity, and call-option protection. The intent of the

Multiclass Securities program is to increase liquidity in the secondary mortgage market and to attract new sources of capital for federally insured or guaranteed loans. Under this program, Ginnie Mae guarantees, with the full faith and credit of the United States, the timely payment of principal and interest on Ginnie Mae REMIC, SMBS and Platinum securities.
