Agency for Healthcare Research and Quality

Preliminary Measure Set for the National Healthcare Quality Report

Request for Comments

The Agency for Healthcare Research and Quality (AHRQ) announces a request for public comment on the Preliminary Measure Set to be used in preparing the first National Healthcare Quality Report (NHQR). The NHQR is a congressionally mandated report (see 42 U.S.C. 299b-2(b)(2)) on national trends

with respect to health care quality. The legislation mandated that the Agency for Healthcare Research and Quality (AHRQ) submit this report on an annual basis beginning in 2003. The Preliminary Measure Set for the NHQR was generated through a call for measures to Federal agencies and private organizations. AHRQ issued a call for measures to Federal agencies, through the Quality Interagency Coordination Task Force (QuIC), from October 2000–February 2001. The Institute of Medicine issued the call to private organizations from June–July 2000. An interagency Department of Health and Human Services (DHHS) working group then reviewed and revised the candidate measures. AHRQ and the interagency working group are seeking comments on (1) the extent to which the proposed measures meet the criteria of importance, scientific soundness, and feasibility; (2) the balance, comprehensiveness, and robustness of the overall measure set; and (3) the appropriateness of the data sources.
