Title: Needs Assessment for Promoting Cultural Competence and Diversity in Youth Mentoring Programs Toolkit.

OMB No. New Collection.

Description: The Department of Health and Human Services' (HHS) Mentoring Children of Prisoners (MCP) program, administered under the Family Youth Services Bureau (FYSB) within the Administration for Children and

Families (ACF), was authorized by the Promoting Safe and Stable Families Act of 2001 (SSFA, Pub. L. 107–133). The MCP program is designed to nurture children who have one or both parents incarcerated. The Secretary of HHS is mandated to appropriate funds for the MCP grant program, specifically for evaluation, research, training, and technical assistance. In FY 2004, grantees began submitting progress reports to HHS.

FYSB will conduct an assessment of the mentoring community to identify and assess needs for the purpose of building a toolkit of practical information and tools to assist mentoring programs in promoting cultural competence and diversity in their programs. The toolkit modules address recruiting minority mentors, assessing and matching mentors and mentees, training, educating program staff and participants, and promoting ethnic identity development.

Respondents: Mentoring Children of Prisoners grantees and National Mentoring Partnership (MENTOR) affiliated mentoring organizations.

Title: National Child Abuse and Neglect Data System.

OMB No.: 0980-0229.

Description: The Child Abuse and Neglect Treatment Act (42 U.S.C. 5101

et seq.) as amended requires States "to annually work with the Secretary to provide to the maximum extent practical, a report" that includes 12 data items listed in the statute. The National Child Abuse and Neglect Data System (NCANDS), administered by the Children's Bureau, meets this reporting requirement. In addition, the amendments of 1988 require that the data system "shall be universal and case specific and integrated with other case-based foster care and adoption data collected by the Secretary." There are two data components, the Detailed Case Data Component (DCDC), which includes the case-level data submitted through the Child File and some aggregated data submitted through the Agency File, and the Summary Data component (SC), which is used by States that cannot submit case-level data. No changes are being requested. The Summary Data Component will be phased out over the next few years as the number of States that can complete the Child File increases.

Respondents: State Child Welfare Agencies.
