Stainless Steel Wire Rod from Sweden: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 6, 2006, the Department of Commerce published the preliminary results of the 2004-2005 administrative review of the antidumping duty order on stainless steel wire rod from Sweden. The review covers one manufacturer/exporter, Fagersta Stainless AB ("FSAB"). The

period of review ("POR") is September 1, 2004, through August 31, 2005.

Based on our analysis of the comments received, we have made changes to the margin calculations. Therefore, the final results differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled "Final Results of Review."

EFFECTIVE DATE: April 10, 2007.

FOR FURTHER INFORMATION CONTACT:

Brian C. Smith, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1766.

SUPPLEMENTARY INFORMATION:

Background

The review covers one manufacturer/exporter: Fagersta Stainless AB ("FSAB"). The period of review is September 1, 2004, through August 31, 2005.

On October 6, 2006, the Department of Commerce ("the Department") published the preliminary results of this administrative review of the antidumping duty order on stainless steel wire rod from Sweden. See *Stainless Steel Wire Rod from Sweden: Preliminary Results of Antidumping Duty Administrative Review*, 71 FR 59082 (October 6, 2006) ("Preliminary Results"). We invited interested parties to comment on the preliminary results of review.¹

FSAB filed its case brief on November 27, 2006, and the petitioners² filed their rebuttal brief on December 4, 2006. Per FSAB's November 3, 2006, request, we held a hearing on December 6, 2006.

On January 11, 2007, we extended the time limit for the final results in this review until April 4, 2007. See *Notice of Extension of Time Limit for Final Results of Antidumping Duty Administrative Review: Stainless Steel*

¹ In the Preliminary Results, we determined it appropriate to treat FSAB and its affiliates, AB Sandvik Materials Technology ("SMT") and Kanthal AB ("Kanthal"), as one entity for margin calculation purposes because they met the regulatory criteria for collapsing affiliated producers. See April 13, 2006, Memorandum from the Team to The File, entitled "Stainless Steel Wire Rod from Sweden: Whether to Collapse FSAB, SMT, and Kanthal." No party objected to this preliminary determination. Therefore, we have continued to treat these affiliated companies as one entity in the final results.

² The petitioners include the following companies: Carpenter Technology Corporation; Crucible Specialty Metals Division, Crucible Materials Corporation; and Electroalloy Corporation, a Division of G.O. Carlson, Inc.
