Background

As stated in the 1997 Agency Strategic Plan, one of the SSA's five major goals is "To Strengthen Public Understanding of the Social Security Programs" so the public will understand what benefits are valuable to them personally. Accordingly, the public will be able to more effectively plan for retirement security. Under this goal, SSA established a strategic objective that, by 2005, 90% of the public will be knowledgeable about SSA programs. In establishing this goal SSA recognized the need to develop innovative methods to help educate and continually measure the public's knowledge of SSA programs.

The Collection—"Quiz Show"

SSA intends to implement an online interactive educational game entitled "Quiz Show—Internet Edition". The purpose of Quiz Show is to help support the Agency's goal of increasing the public's understanding of Social Security programs.

Quiz Show will consist of 10 questions, which are based on 8 key messages about SSA programs that the Agency wants the public to understand. Participation in the online game will be strictly voluntary. Data collected through each Quiz Show question will measure the overall responses for the purpose of gauging the public's knowledge of each key Social Security message.

SSA will implement Quiz Show in stages, with the initial stage providing performance feedback to the user. However, eventually SSA will use Quiz Show to collect performance data and demographic data. SSA will not require users to provide demographic data to play the game. Rather, users would be asked to provide this data voluntarily. Questions related to demographics are for the sole purpose of identifying audiences to whom specific key

messages should be targeted to increase their knowledge. Respondents to Quiz Show will be individuals who visit SSA's website, Social Security Online, and elect to play the online game.

Number of Respondents: 1,000,000.

Frequency of Response: 1.

Average Burden Per Response: 30 minutes.

Estimated Annual Burden: 500,000 hours.

9. *Internet Social Security Benefits Application—0960-0618.* The Internet Social Security Benefits Application (ISBA), which is available at the Social Security Administration's (SSA) Internet site, is one application that the Commissioner of Social Security prescribes to meet the requirement to file an application for benefits. Currently, the ISBA can only be used to apply for retirement and spouse's benefits. SSA plans to expand ISBA to encompass surviving spouse (i.e., widow and widower) benefits. The expanded ISBA will enable individuals to complete the application electronically on their own and submit the application over the Internet. Until SSA develops an acceptable electronic signature process, applicants will also print, sign and mail the ISBA statement with the required evidence that supports their benefit application. The information that SSA collects will be used to determine entitlement to Social Security benefits. The respondents are individuals who choose to apply for Social Security benefits over the Internet.
