BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 010112013-1013-01; I.D. 022601B]

Fisheries of the Economic Exclusive Zone Off Alaska; Groundfish Fisheries by Vessels Using Hook-and-Line Gear in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for groundfish by vessels using hook-and-line gear in the Gulf of Alaska (GOA), except for sablefish or demersal shelf rockfish. This action is necessary because the first seasonal bycatch mortality allowance of Pacific halibut apportioned to hook-and-line gear targeting groundfish other than sablefish or demersal shelf rockfish in the GOA has been caught.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 26, 2000, until 1200 hrs, A.l.t., May 17, 2001.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The Pacific halibut bycatch mortality allowance for groundfish included in the other hook-and-line fishery, which is defined at § 679.21(d)(4)(iii)(C), was established by the Final 2001 Harvest Specifications and Associated Management Measures for the Groundfish Fisheries Off Alaska (66 FR 7276, January 22, 2001) for the first season, the period January 1, 2001, through May 17, 2001, as 175 metric tons. The other hook-and-line fishery includes all groundfish except sablefish or demersal shelf rockfish.

In accordance with § 679.21(d)(7)(ii), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the first seasonal apportionment of the 2001 Pacific halibut bycatch mortality allowance specified for the hook-and-line groundfish fisheries other than sablefish or demersal shelf rockfish in the GOA has been caught. Consequently, NMFS is prohibiting directed fishing for groundfish other than sablefish or demersal shelf rockfish by vessels using hook-and-line gear in the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action because the first seasonal bycatch mortality allowance of Pacific halibut apportioned to hook-and-line gear in the GOA has been caught constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly the need to implement these measures in a timely fashion because the first seasonal bycatch mortality allowance of Pacific halibut apportioned to hook-and-line gear in the GOA has been caught constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.21 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 26, 2001.

Dean Swanson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
