

U.S.C. Chapter 5) does not apply to this regulation. Because the regulation does not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. Chapter 6) does not apply, either. Pursuant to section 7805(f) of the Internal Revenue Code, this regulation has been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact.

#### Background and Purpose

On July 13 through July 19, 2008, the U.S. Naval Academy, Annapolis, MD will host the “William I. Koch International Sea Scout Cup”, sailboat regatta on the waters of the Severn River. This youth sailing regatta is comprised of young men and women between the ages of 14 and 21 who are actively registered in the Sea Scout program. The five-day event will be held at the Naval Academy’s Sailing Center. Teams from the United States and 20 countries will test their

seamanship skills as they sail 14’ sloop rigged boats. The event will consist of approximately 80 fourteen-foot sailboats racing about several marked courses on the Severn River. A fleet of spectator vessels is anticipated to gather nearby to view the competition. Due to the need for vessel control during the event, vessel traffic will be temporarily restricted to provide for the safety of participants, support vessels, spectators and transiting vessels.

#### Discussion of Proposed Rule

The Coast Guard proposes to establish temporary special local regulations on specified waters on the Severn River adjacent to the U.S. Naval Academy, Annapolis, Maryland. This rule would be enforced from 8:30 a.m. to 7:30 p.m. on July 14, 15, 16, 17, and 18, 2008, and would restrict general navigation in the regulated area during the sail boat regatta. The Coast Guard, at its discretion, when practical would allow the passage of vessels when races are not taking place. If the event’s daily activities should conclude prior to 7:30 p.m., enforcement of this proposed regulation may be terminated for that day at the discretion of the Patrol Commander. Except for participants and vessels authorized by the Coast Guard Patrol Commander, no person or vessel would be allowed to enter or remain in the regulated area during the enforcement period.

#### Regulatory Evaluation

This proposed rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary. Although this proposed regulation would prevent traffic from transiting a portion of the Severn River adjacent to U.S. Naval Academy, Annapolis, Maryland during the event, the effects of this regulation would not be significant due to the limited duration that the regulated area would be in effect. Extensive advance notifications would be made to the maritime community via Local Notice to Mariners, marine information broadcast, area newspapers and radio stations, so mariners can adjust their plans accordingly. Vessel traffic would be able to transit the regulated area between races, when the Coast Guard Patrol Commander deems it is safe to do so.

#### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule will affect the following entities, some of which may be small entities: The owners or operators of vessels intending to transit this section of the Severn River during the event.

This proposed rule would not have a significant economic impact on a substantial number of small entities for the following reasons. This rule will be enforced for only a short period, from 8:30 a.m. to 7:30 p.m. on July 14, 15, 16, 17, and 18, 2008. The regulated area will apply to a segment of the Severn River adjacent to the U.S. Naval Academy waterfront. Marine traffic may be allowed to pass through the regulated area with the permission of the Coast Guard Patrol Commander. In the case where the Patrol Commander authorizes passage through the regulated area during the event, vessels will be required to proceed at the minimum speed necessary to maintain a safe course that minimizes wake near the race course. Before the enforcement period, we would publish a notice in the Fifth Coast Guard District Local Notice to Mariners and issue marine information broadcasts so mariners can adjust their plans accordingly. Information regarding the International Sea Scout Cup will be disseminated by local community news papers and radio stations.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

#### Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that

they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the Coast Guard at the number listed under **FOR FURTHER INFORMATION CONTACT**. The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

#### Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

#### Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

#### Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

#### Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

#### Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety

Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

#### Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

#### Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

#### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

#### Environment

We have analyzed this proposed rule under Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and

have made a preliminary determination that this action is not likely to have a significant effect on the human environment.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.
