#### Five-Year Review of the Oil Pipeline Index; Notice Regarding Conference

On June 30, 2015, the Commission issued a notice of inquiry (NOI) in the above-captioned proceeding initiating its five-year review of the oil pipeline index. The Commission stated that it planned to hold a conference on July 30, 2015, regarding the issues raised by the NOI.<sup>1</sup>

The conference will be held on July 30, 2015, from 2:00 p.m. to 3:30 p.m. (EST), at the offices of the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The conference will be led by Commission Staff and may be attended by one or more Commissioners.

The purpose of the conference is to gain an understanding of the positions of the parties in advance of the filed comments in this proceeding. At the conference, interested persons will be permitted to give brief presentations regarding the index level proposed in the notice of inquiry and any alternative methodologies for calculating the index level. Each presenter will be allowed up to 15 minutes as time permits based on the number of presentations.

The technical conference will not be transcribed. However, there will be a free webcast of the conference. The webcast will allow persons to listen to the technical conference, but not participate. Anyone with Internet access who wants to listen to the conference can do so by navigating to the Calendar of Events at [www.ferc.gov](http://www.ferc.gov) and locating the technical conference in the Calendar. ### Federal Energy Regulatory Commission

[Docket No. CP15-523-000]

#### American Midstream (Midla), LLC; Notice of Application

Take notice that on June 29, 2015, American Midstream (Midla), LLC (Midla) filed an application with the Federal Energy Regulatory Commission pursuant to section 7(c) of the Natural Gas Act (NGA) requesting authority to construct its Natchez Pipeline, consisting of approximately 51.97 miles of 12-inch-diameter pipeline and approximately 0.5 miles of 4-inch-diameter lateral pipeline from

interconnections with Tennessee Gas Pipeline Company, L.L.C. and Columbia Gulf Transmission, LLC in the Winnshoro, Louisiana area, through Franklin, Catahoula, and Concordia Parishes, Louisiana, under the Mississippi River, and into Adams County, Mississippi to the Natchez, Mississippi area. The Natchez Pipeline will provide up to 48,300 Dekatherms per day at an estimated cost of \$66.2 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the application should be directed to Dennis J. Kelly, Senior Counsel for Midla, 1400 16th Street, Suite 300, Denver, CO 80202, by phone at (720) 457-6076 or by email at [dkelly@AmericanMidstream.com](mailto:dkelly@AmericanMidstream.com).

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance

<sup>1</sup> Five-Year Review of the Oil Pipeline Index, 151 FERC ¶ 61,278 (2015).

<sup>2</sup> The webcast will continue to be available on the Calendar of Events on the Commission's Web site at [www.ferc.gov](http://www.ferc.gov) for three months after the conference.

with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.
