AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Altop Energy Investments LP (the Applicant) has applied for authorization to transmit electric energy from the United States to Mexico pursuant to the Federal Power Act.

FOR FURTHER INFORMATION CONTACT:

Janessa Zucchetto, (240) 474-8226, *Electricity.Exports@hq.doe.gov*.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Redefinition Order No. S3-DEL-GD1-2023.

On October 15, 2024, Altop Energy Investments LP filed an application (Application or App.) with DOE to transmit electric energy from the United States to Mexico for a five-year term. App. at 1.

According to the Application, Altop Energy Investments LP is a Delaware limited partnership with its principal

place of business in Houston, TX. *Id.* The Applicant states that it is "engaged in the trading and marketing of both financial and physical electricity in the wholesale power markets in North America." *Id.* Further, the Applicant states that it is authorized via its subsidiaries to sell wholesale electric energy, capacity and ancillary services at market-based rates in all regions of the United States. *Id.* Altop Energy Investment LP states that it "has no obligation to serve native load, does not own or operate any electric distribution or transmission facilities, does not own or operate any natural gas distribution or transmission facilities, and does not own or operate any generation assets." *Id.* The Applicant represents that the energy to be exported will be surplus to the requirements of selling entities and the overall electrical system and that its exports "will not impair the reliability of the grid." *Id.* at 2.

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See* App. at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the email address provided previously.
