

protect public health and welfare and the environment.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on July 9, 2004; no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 11.1 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are facilities that manufacture, process, transport, or otherwise use certain specified hazardous substances.

Estimated Number of Respondents: 3,276.

Frequency of Response: After initially reporting the continuous release to the NRC and EPA Region, only a one-year follow-up report to the EPA Region is necessary unless there is a change in the source of the continuous release, a change in the chemical composition of the continuous release, or a significant increase in the level of the continuous release. In these cases the person in charge of the facility has to notify the NRC and the appropriate EPA Regional Office of the change in the continuous release.

Estimated Total Annual Hour Burden: 284,154.

Estimated Total Annual Cost: \$10,101,032 includes \$85,521 O&M costs, \$0 Capital expense, and \$10,015,511 Respondent Labor costs.

Changes in the Estimates: There is an increase of 34,703 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR

Burdens. This increase is primarily the result of adjustments to the estimates. Annual respondent burden hours are based on data from actual numbers of continuous release reports from several regions and the application of a growth rate consistent with prior years' reporting. The average annual percent increase in the number of facilities in the ICR is 7.5%.

Dated: November 16, 2004.
