k. *Description of Request:* The licensee is proposing to amend Article 404, the Operational and Compliance Monitoring Plan, and the Impoundment Operation Consultation Plan in order to reflect an update to the reservoir elevation gage reference datum which effects the readings of the reservoir (West Grand Lake) elevation. The readout of the gage was changed when the gage's elevation datum was updated to NAVD88 datum from the NAD29 datum. The proposed amendment of Article 404 and the plans would not change the actual physical water elevation in West Grand Lake, the way it is operated, or the physical historic operational elevation bands. It would only update the values listed in Article 404 and the plans to reflect the revised readouts of Gage No. 01018900 in NAVD88 datum.
