

reported within 20 days to the Regional Administrator.

(3) When contacting NMFS after an interaction, vessel operators must provide the location (latitude and longitude) of the interaction and a description of the interaction itself. If available, location information should also include water depth, distance from shore, and relation to port or other landmarks. Descriptive information of the interaction should include: whether or not the otters were seen inside or outside the net; if inside the net, had the net been completely encircled; whether any otters came in contact with either the net or the vessel; the number of otters present; duration of interaction; the otter's behavior during interaction; measures taken to avoid interaction.

Affected Public: Business or other for-profit organizations.

Frequency: As necessary.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 660.520(a).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0566.

Sheleen Dumas,

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of New York State Coastal Management Program; Notice of Public Meeting; Request for Comments

AGENCY: Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration, Department of Commerce.

ACTION: Notice of public meeting and opportunity to comment.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA),

Office for Coastal Management, will hold a virtual public meeting to solicit input on the performance evaluation of the New York Coastal Management Program. NOAA also invites the public to submit written comments.

DATES: NOAA will hold a virtual public meeting on Wednesday, March 1, 2023, at 12 p.m. ET. NOAA will also consider all relevant written comments received by Friday, March 10, 2023.

ADDRESSES: Comments may be submitted by one of the following methods:

- **Virtual Public Meeting:** Provide oral comments during the virtual public meeting on Wednesday, March 1, 2023, at 12 p.m. ET by registering as a speaker at <https://forms.gle/5JjX5CUYjw9tG4pA8>. Please register by 8 p.m. ET, Tuesday, February 28, 2023. Upon registration, NOAA will send a confirmation email. The lineup of speakers will be based on the date and time of registration. One hour prior to the start of the meeting on March 1, 2023, NOAA will send an email to all registered speakers with a link to the public meeting and information about participating.

- **Email:** Send written comments to Carrie Hall, Evaluator, NOAA Office for Coastal Management, at CZMA.evaluations@noaa.gov.

Written comments received are considered part of the public record, and the entirety of the comment, including the name of the commenter, email address, attachments, and other supporting materials, will be publicly accessible. Sensitive personally identifiable information, such as account numbers and Social Security numbers, should not be included with the comment. Comments that are not related to the performance evaluation of the New York Coastal Management Program or that contain profanity, vulgarity, threats, or other inappropriate language will not be considered.

FOR FURTHER INFORMATION CONTACT:

Carrie Hall, Evaluator, NOAA Office for Coastal Management, by email at Carrie.Hall@noaa.gov or by phone at (240) 410–3422. Copies of the previous evaluation findings and Assessment and Strategies may be viewed and downloaded at <https://coast.noaa.gov/czm/evaluations/>. A copy of the evaluation notification letter and most recent progress report may be obtained upon request by contacting Carrie Hall.

SUPPLEMENTARY INFORMATION: Section 312 of the Coastal Zone Management Act (CZMA) requires NOAA to conduct periodic evaluations of federally approved coastal management programs. The evaluation process

includes holding one or more public meetings, considering public comments, and consulting with interested Federal, State, and local agencies and members of the public. During the evaluation, NOAA will consider the extent to which the State of New York has met the national objectives, adhered to the management program approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the CZMA. When the evaluation is complete, NOAA's Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the final evaluation findings.

Keelin Kuipers,

Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

[RTID 0648–XC631]

Gulf of Mexico Fishery Management Council; Public Meeting; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of an addendum to a public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will hold a four-day meeting to consider actions affecting the Gulf of Mexico fisheries in the exclusive economic zone (EEZ). The meeting is a hybrid that is open to the public offering both in-person and virtual options for participation.

DATES: The meeting will convene Monday, January 30 through Wednesday, February 1 at 8 a.m.–5 p.m. and Thursday, February 2, 2023, at 8 a.m.–4:30 p.m., CST.

ADDRESSES: The meeting will take place at the Hilton Baton Rouge Capitol Center hotel, located at 201 Lafayette Street, Baton Rouge, LA 70801. Please note, in-person meeting attendees will be expected to follow any current safety protocols as determined by the Council, hotel and the City of Baton Rouge, if any. Such precautions may include masks, room capacity restrictions, and/or social distancing. If you prefer to “listen in”, you may access the log-on

information by visiting our website at www.gulfcouncil.org.

Council address: Gulf of Mexico Fishery Management Council, 4107 W Spruce Street, Suite 200, Tampa, FL 33607; telephone: (813) 348-1630.

FOR FURTHER INFORMATION CONTACT: Dr. Carrie Simmons, Executive Director, Gulf of Mexico Fishery Management Council; telephone: (813) 348-1630.

SUPPLEMENTARY INFORMATION: The original meeting notice published in the **Federal Register** on January 10, 2023 (88 FR 1366). This notice adds an additional agenda item to the Tuesday, January 31, 2023 agenda. All other previously published information remains unchanged.

The agenda for January 31st should now read as follows:

Tuesday, January 31, 2023; 8 a.m.–5 p.m., CST

The *Reef Fish* Committee will reconvene to review and discuss the Individual Fishing Quota (IFQ) Focus Group Outcomes, Program Priorities List and Draft Amendment 56: Modifications to the *Gag Grouper* Catch Limits, Sector Allocations, and Fishing Seasons. The Committee will have a 30-minute break for a working lunch. Following the break, the Committee will review Draft Options: Modifications to Recreational and Commercial *Greater Amberjack* Management Measures. The Committee will review the Revised Recreational *Red Snapper* Calibration Ratios, and the January 2023 Gulf SSC Summary Report including catch level recommendations for SEDAR 75 Gray Snapper Stock Assessment and 2023 Red Grouper Interim Analysis.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 12, 2023.

Key Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Endangered Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce.

ACTION: Notice of receipt; for modification and renewal of an existing

scientific research and enhancement permit.

SUMMARY: Notice is hereby given that NMFS received an application from the Wiyot Tribe in Loleta, California for modification and renewal of an U.S. Endangered Species Act (ESA) Section 10(a)(1)(A) scientific and enhancement permit (Permit 22270-2R). The purpose of the permit is to enhance the survival of threatened Southern Oregon/Northern California Coast (SONCC) Evolutionary Significant Unit (ESU) of coho salmon (*Oncorhynchus kisutch*); threatened California Coast (CC) ESU Chinook salmon (*O. tshawytscha*); and threatened Northern California (NC) Distinct Population Segment (DPS) of steelhead (*O. mykiss*) by segregating and removing predatory non-native Sacramento River pikeminnow using a variety of techniques. The University of California at Berkeley and Stillwater Sciences are co-investigators on the permit and will assist with implementation of the permit activities. The public is hereby notified that the application for Permit 22270-2R is available for review and comment before NMFS either approves or disapproves the application.

DATES: Written comments on the permit application must be received at the appropriate email address (see **ADDRESSES**) on or before February 21, 2023.

ADDRESSES: Written comments on the permit application should be submitted to Matt Goldsworthy via email at Matt.Goldsworthy@noaa.gov with “Permit 22270-2R” referenced in the subject line. The permit application and Weir Operations Plan is available for review online at the Authorizations and Permits for Protected Species website: https://apps.nmfs.noaa.gov/preview/preview_open_for_comment.cfm.

FOR FURTHER INFORMATION CONTACT: Matt Goldsworthy (phone: 707-357-1338 or email: Matt.Goldsworthy@noaa.gov).

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

Southern Oregon/Northern California Coast (SONCC) Evolutionary Significant Unit (ESU) of coho salmon (*Oncorhynchus kisutch*); California Coast (CC) ESU of Chinook salmon (*O. tshawytscha*); and Northern California (NC) Distinct Population Segment (DPS) of steelhead (*O. mykiss*).

Authority

Scientific research and enhancement permits are issued in accordance with Section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations

governing listed fish and wildlife permits (50 CFR 222-227). NMFS issues permits based on findings that such permits: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in Section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits.

This notice is provided pursuant to Section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and any comment submitted to determine whether the application meets the requirements of Section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period and consideration of any comment submitted therein. NMFS will publish notice of its final action in the **Federal Register**.

Those individuals requesting a hearing on the application listed in this notice should provide the specific reasons why a hearing on the application would be appropriate (see **ADDRESSES**). Such a hearing is held at the discretion of the Assistant Administrator for NOAA Fisheries.

Permit Application Received:

Permit 22270-2R

The Wiyot Tribe in Loleta, California applied for modification and renewal of a Section 10(a)(1)(A) scientific research and enhancement permit (Permit 22270-2R). The University of California at Berkeley and Stillwater Sciences are co-investigators on the permit and will assist with implementation of the permit activities. The application involves research and activities to enhance the survival of threatened Southern Oregon/Northern California Coast (SONCC) Evolutionary Significant Unit (ESU) of coho salmon (*Oncorhynchus kisutch*); threatened California Coast (CC) ESU Chinook salmon (*O. tshawytscha*); and threatened Northern California (NC) Distinct Population Segment (DPS) of steelhead (*O. mykiss*) by segregating and removing predatory non-native river pikeminnow (*Ptychocheilus grandis*) using a variety of techniques.

This project's objectives are to: (1) remove large numbers of predatory non-native Sacramento River pikeminnow from the mainstems of the South Fork Eel River, Van Duzen River, and Lower Eel River to increase survival of listed salmonids and other native species; (2) continue to refine methods and strategies for pikeminnow population
