

results from this data collections will be used to develop AAA's social marketing campaigns designed to increase HIV/AIDS awareness and knowledge, understand HIV prevention behaviors, improve HIV testing rates, challenge commonly held misperceptions about HIV, and promote HIV prevention and risk reduction among consumers. The research results will be used to develop materials for six specific HIV social marketing campaigns under the umbrella of the larger *Act Against AIDS* campaign. The campaigns will target consumers aged 18–64. Some campaigns will target the general public as a whole and other campaigns will focus on specific subpopulations at greatest risk for HIV infection. The target audiences will include Latinos, men who have sex with men (MSM), HIV-positive individuals and African Americans. These data will assist CDC in addressing the HIV prevention needs of specific

campaign audiences and make appropriate funding decisions regarding campaign development or campaign direction.

Respondents will be members of the targeted consumer groups aged 18–64 recruited from areas with high HIV/AIDS prevalence and incidence such as New York, NY; Los Angeles, CA; Washington, DC; Chicago, IL; Atlanta, GA; Miami, FL; Philadelphia, PA; Houston, TX; San Francisco, CA; Baltimore, MD; Dallas, TX or other cities as appropriate. Respondents for this data collection will participate in a focus group, in-depth interview, or intercept interview. Focus group and in-depth interview respondents will be recruited by professional recruiting firms. The professional recruiting firms will utilize a proprietary database of individuals who have agreed to be contacted for potential participation in various studies. Project staff will recruit

intercept interview respondents in venues where the general public tend to gather, such as health fairs or other community events.

Information collection will begin after receiving approval and end three years from approval. The study will screen 1,538 people per year for eligibility. Of the 1,538 people screened, it is expected that 500 people will participate in focus groups, 500 people will participate in in-depth interviews. All focus group and in-depth interview participants will complete a brief paper and pencil survey. Seven hundred people will participate in intercept interviews. The total estimated burden for this one-time data collection is 6,852 hours. Annualizing this information over 3 years results in an estimated annualized burden of 2,284 hours.

There are no costs to respondents other than their time.

Title: 45 CFR Part 1305 Head Start Eligibility Verification.

OMB No.: 0970–0374.

Description: The requirements for establishing proof of eligibility for the

enrollment of children in Head Start programs are documented in 45 CFR 1305.4(e). Each child's record must include a signed document by an employee identifying those documents which were reviewed to determine eligibility. Presently there is no uniform document which the employee must sign. This form will be used to facilitate an efficient and accurate determination of children's eligibility for Head Start enrollment.

Respondents: Head Start grantees.

Proposed Project

Title: Head Start Facilities Construction, Purchase and Major Renovations.

OMB No.: 0980-0242.

Description: Section 646 of the Head Start Act requires the Secretary to prescribe a timeline for conducting administrative hearings when adverse actions are taken or proposed against Head Start or Early Head Start grantees or delegate agencies. The Office of Head Start is proposing to renew without changes this rule which implements these requirements and which prescribe when a grantee must submit information and what that information should include to support a contention that adverse action should not be taken.

Respondents: Head Start and Early Head Start grantees and delegate agencies against which the Head Start Bureau has taken or proposes to take adverse actions.

OMB No.: 0970-0193.

Description: The Head Start Bureau is proposing to renew, without changes, the information collections activities for the regulations in 45 CFR part 1309. The part contains the administrative requirements applicable to Head Start and Early Head Start grantees, when applying for funding to purchase, renovate or construct Head Start program facilities. The regulations ensure that standard business practices are applied when acquiring real property and that federal interest is preserved in properties acquired with public funds. The regulations further ensure compliance with all other federal statutes applicable to the expenditure of federal funds when acquiring real property.

Respondents: Head Start and Early Head Start programs are delegate agencies.
