Abstract: Section 7004(b) of RCRA gives EPA broad authority to provide for, encourage, and assist public participation in the development, revision, implementation, and enforcement of any regulation, guideline, information, or program under RCRA. In addition, the statute specifies certain public notices (*i.e.*, radio, newspaper, and a letter to relevant agencies) that EPA must provide before issuing any RCRA permit. The statute also establishes a process by which the public can dispute a permit and request a public hearing to discuss it. EPA carries out much of its RCRA public involvement at 40 CFR parts 124 and 270.

Form Numbers: None.

Respondents/affected entities: Businesses and other for-profit.

Respondent's obligation to respond: Mandatory (RCRA 7004(b)).

Estimated number of respondents: 47.

Frequency of response: On occasion.

Total estimated burden: 4,474 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$336,413 (per year), includes \$4,863 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 99 hours between this ICR and the current one.

This slight increase is due to a slight increase in the respondent universe.

Director, Regulatory Support Division.

The docket can be viewed online at <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of metal furniture surface coating facilities are required to comply with reporting and record keeping requirements for the General Provisions (40 CFR part 63, subpart A), as well as for the applicable specific standards in 40 CFR part 63 subpart RRRR. This includes submitting initial notifications, performance tests and periodic reports and results, maintaining records of materials usage, and any period during which the add-on control system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form Numbers: 5900-0528.

Respondents/affected entities:

Existing and new facilities that perform metal furniture surface coating operations.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart RRRR).

Estimated number of respondents: 16 (total).

Frequency of response: Initially, semiannually.

Total estimated burden: 4,270 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$505,000 (per year), which includes \$0 for annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a decrease in burden from the most-recently approved ICR as currently

identified in the OMB Inventory of Approved Burdens. This ICR incorporates the requirements from the March 2019 and November 2020 rules. The decrease is due to two considerations. Since a previous ICR renewal, 1952.06, was published in 2016, sources have changed their coating practices to use non-HAP coatings, resulting in a decrease in the number of respondents. The data gathered during the recent rulemaking indicates that there are no sources using add-on controls, resulting in a decrease in O&M costs. There is no growth in this industry, therefore there is no annualized capital/startup cost.

Director, Regulatory Support Division.
