

DEPARTMENT OF AGRICULTURE**Forest Service****Notice of Southwest Idaho Resource Advisory Committee Meeting****AGENCY:** Forest Service, USDA.**ACTION:** Notice of meeting.

SUMMARY: Pursuant to the authorities in the Federal Advisory Committee Act (Pub. L. 92-463) and under the Secure Rural Schools and Community Self-Determination Act of 2000, as amended, (Pub. L. 110-343), the Boise, Payette, and Sawtooth National Forests' Southwest Idaho Resource Advisory Committee will conduct a business meeting. The meeting is open to the public.

DATES: Thursday, April 15, 2010, beginning at 10:30 a.m.

ADDRESSES: Idaho Counties Risk Management Program Building, 3100 South Vista Avenue, Boise, Idaho.

SUPPLEMENTARY INFORMATION: Agenda topics will include review and approval of project proposals, and is an open public forum.

FOR FURTHER INFORMATION CONTACT: Dale Olson, Designated Federal Official, at (208) 347-0322 or e-mail dolson07@fs.fed.us.

Dated: March 22, 2010.

Suzanne C. Rainville,

Forest Supervisor, Payette National Forest.

[FR Doc. 2010-7006 Filed 3-30-10; 8:45 am]

BILLING CODE 3410-11-M

Meeting Agenda

This meeting is open to the public, except where noted otherwise.

I. Approval of Agenda**II. Program Planning**

- Approval of Letter to Youngstown, Ohio City Council Members re Racially Bifurcated Test Results in the Police and Fire Departments
- Update on Status of 2010 Enforcement Report—Some of the discussion of this agenda item may be held in closed session.
- Update on Status of Title IX Project—Some of the discussion of this agenda item may be held in closed session.

III. Adjourn

The Commission's next scheduled meeting is Friday, April 16, 2010, the details of which will be published in the **Federal Register** eight days prior to that meeting.

CONTACT PERSON FOR FURTHER

INFORMATION: Lenore Ostrowsky, Acting Chief, Public Affairs Unit (202) 376-8591. TDD: (202) 376-8116.

Persons with a disability requiring special services, such as an interpreter for the hearing impaired, should contact Pamela Dunston at least seven days prior to the meeting at 202-376-8105. TDD: (202) 376-8116.

Dated: March 29, 2010.

David Blackwood,

General Counsel.

BILLING CODE 6335-01-P

explore the use of the Internet for the 2020 Census as an alternative means for the public to respond to the Census. Therefore, we have established the 2010 Census Quality Survey (CQS), formerly known as the Internet Reinterview Evaluation, as a research component under the 2010 Census Program for Evaluations and Experiments (CPEX).

Projects under the 2010 CPEX will guide future census design as well as benefit other ongoing programs conducted by the Census Bureau, such as the American Community Survey.

As with previous decennial censuses dating back to 1950, the Census Bureau conducts a formal program to assess the census and experimental tests that examine methodologies, techniques, and strategies that will potentially improve the way the Census Bureau conducts the next decennial census. For experimental studies, the actual decennial census environment is required because it provides the necessary conditions to learn the true effects of new ideas within the context of the actual effects of national advertising, outreach partnerships, and other events that occur only during a census.

The 2010 CQS seeks to build on previous Internet data collection research in order to set the stage for the Internet testing cycle for the 2020 Census. The main objective is to estimate measurement errors, such as simple response variance and bias of responses from a census mail questionnaire compared to those from a census Internet questionnaire. The reinterviews will be conducted with a sample of 2010 Census mail respondents in order to provide estimates of measurement errors associated with the design and content of a self-administered census Internet questionnaire. Since the measurement error structure may differ depending on whether a respondent has only one response mode option (*i.e.* mail or Internet) versus having a choice between the two modes, we are testing both 'push' and 'choice' strategies. A sample of the 2010 Census mail questionnaire respondents will be invited to complete an Internet reinterview ('push' Internet), which has the same content as the 2010 mail questionnaire. A separate sample of the 2010 Census mail questionnaire respondents will be invited to complete a mail reinterview ('push' mail) with the same 2010 content. A third sample of the 2010 Census mail questionnaire respondents will be invited to complete a reinterview with the choice of mail or Internet modes ('choice' Internet/mail).

COMMISSION ON CIVIL RIGHTS**Sunshine Act Notice**

AGENCY: United States Commission on Civil Rights.

ACTION: Notice of meeting cancellation.

SUMMARY: On March 18, 2010 (75 FR 13076) the U.S. Commission on Civil Rights announced a business meeting to be held on Friday, March 26, 2010 at the Commission's headquarters. On Thursday, March 25, 2010, the meeting was cancelled. The decision to cancel the meeting was too close in time to the day of the meeting for the publication of a cancellation notice to appear in advance of the scheduled meeting date. The details of the cancelled meeting are:

DATE AND TIME: Friday, March 26, 2010; 11:30 a.m. EDT.

PLACE: Via Teleconference. Public Dial in: 1-800-597-7623. Conference ID # 63007474.

Meeting open to public.

DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2010 Census Quality Survey.

Form Number(s): D-1R1.

OMB Control Number: None.

Type of Request: New collection.

Burden Hours: 43,810.

Number of Respondents: 262,857.

Average Hours per Response: 10 minutes.

Needs and Uses: As the 2010 Census nears, planning for the 2020 Census is already underway. One particular area of interest for the 2020 Census is to make the Census cost-effective and accurate. The Census Bureau will

The data from the Internet reinterview will be compared with the data from the mail reinterview to provide additional information for estimating measurement errors associated with responses from each of the data collection modes as well as response option strategies. Internet reinterview data will also be compared to 2010 Census mail questionnaire data for the same households to estimate gross difference rates. A similar comparison will be made for the mail reinterview to estimate gross difference rates for the mail mode. These gross difference rates will be compared to estimate the measurement error that arises from Internet versus census mail questionnaires. In addition to estimating measurement errors, a key objective of the evaluation is to collect data related to respondent interaction with a census Internet questionnaire such as break-off rates and completion times. Laboratory usability testing will also provide data (e.g., eye-tracking and mouse-tracing results) on navigational issues. Note that we are currently considering tracing mouse movement for a sample of survey respondents, which would include presentation of an informed consent statement.

The Internet and mail reinterviews will be conducted in late summer of 2010, after the census enumeration activities have been completed, to minimize the risk to the 2010 Census data collection. However, the reinterviews will be conducted as close to the census enumeration as feasible to effectively compare reinterview results to the 2010 Census self-administered mail questionnaire. Presumably, the results collected within the census environment will reflect a more generalizable measurement error structure than results from a mid-decade census test instrument. In addition, we hope to capitalize on respondents' awareness of the 2010 Census to obtain a higher response to the reinterviews than would be possible in the absence of the 2010 Census environment. However, for the Internet reinterview, compliance may suffer from public messaging informing potential respondents that there is no Internet response option in the 2010 Census.

As with all CPEX experiments and evaluations, the 2010 CQS is primarily designed for use by the Census Bureau to inform early 2020 Census testing and planning. The intent is to use the 2010 CQS quantitative results, in combination with the usability laboratory results, to focus the Census Bureau's Internet development/design resources for early decade testing. This questionnaire design work will be

integrated with response option and contact strategy research within the 2020 testing cycle to establish the optimal Internet data collection strategy for the 2020 Census.

The 2010 CQS is intended to provide estimates of measurement error associated with the design and content of a self-administered census Internet questionnaire. The overall goal is to design the most effective census Internet questionnaire, given the time and resource constraints, and then evaluate its associated measurement error and usability issues. The Internet instrument is not intended to simply replicate the 2010 Census mail questionnaire in an electronic mode. Rather, the goal is to evaluate measurement error associated with an Internet questionnaire that exploits the advantages of the electronic technology, while still retaining the meaning and intent of the questions and response options from the mail form. Likewise, this evaluation is not intended to evaluate public compliance (as measured by unit-level response rates). An Internet response strategy study within the 2010 Census production cycle (or shortly after) would be limited by the 2010 Integrated Communication Program (ICP) messages stating that there is no Internet data collection for the 2010 Census.

Affected Public: Individuals or households.

Frequency: One-time only.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Sections 141 and 193.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or e-mail (bharrisk@omb.eop.gov).

Dated: March 26, 2010.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

International Trade Administration

[C-570-936]

Circular Welded Carbon Quality Steel Line Pipe from the People's Republic of China: Notice of Amended Final Determination Pursuant to Final Court Decision

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 11, 2009, the United States Court of International Trade (CIT) sustained the Department of Commerce's (the Department) remand determination in *Circular Welded Carbon Quality Steel Line Pipe from the People's Republic of China: Final Affirmative Countervailing Duty Determination*, 73 FR 70961 (Nov. 24, 2008) (*Line Pipe from the PRC*), amended by *Circular Welded Carbon Quality Steel Line Pipe from the People's Republic of China: Notice of Amended Final Affirmative Countervailing Duty Determination and Notice of Countervailing Duty Order*, 74 FR 4136 (Jan. 23, 2009) (*Amended Line Pipe from the PRC*). Because all litigation in this matter has concluded, the Department is issuing the amended final determination in *Line Pipe from the PRC* in accordance with the CIT's decision.

EFFECTIVE DATE: March 31, 2010.

FOR FURTHER INFORMATION CONTACT: John Conniff, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230; telephone: 202/482-1009.

SUPPLEMENTARY INFORMATION:

Background

On November 24, 2008, the Department published its affirmative countervailing duty determination in *Line Pipe from the PRC*. On January 23, 2009, the Department published an amended affirmative countervailing duty determination in conjunction with the countervailing duty order. See *Amended Line Pipe from the PRC*. After correcting for ministerial errors, the Department calculated an amended subsidy rate for Huludao Seven-Star Steel Pipe Group Co., Ltd. (Huludao Seven Star Group), Huludao Steel Pipe Industrial Co. Ltd. (Huludao Steel Pipe), and Huludao Bohai Oil Pipe Industrial Co. Ltd. (Huludao Bohai) (collectively, the Huludao Companies) of 31.29 percent. *Id.*
