Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application submitted by the Northeast Fisheries Science Center contains all of the required information and warrants further consideration. This Exempted Fishing Permit would exempt participating vessels from minimum fish size restrictions and fish possession limits. Regulations under the Magnuson-Stevens Fishery

Conservation and Management Act require publication of this notice to provide interested parties the opportunity to comment on Exempted Fishing Permit applications.

DATES: Comments must be received on or before April 15, 2019.

ADDRESSES: You may submit written comments by either of the following methods:

- *Email:* nmfs.gar.efp@noaa.gov. Include in the subject line "Comments on NEFSC Study Fleet EFP."
- *Mail:* Michael Pentony, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on NEFSC Study Fleet EFP."

FOR FURTHER INFORMATION CONTACT: Spencer Talmage, Fishery Management Specialist, 978-281-9232, Spencer.Talmage@noaa.gov.

SUPPLEMENTARY INFORMATION: The Northeast Fisheries Science Center submitted a complete application for an Exempted Fishing Permit (EFP) on February 26, 2019, for the 2019 Study Fleet Program. The EFP would exempt 18 commercial fishing vessels from the minimum size and possession limits for species of interest, as well as allow temporary retention of species that would be discarded.

The Center established the Study Fleet Program in 2002 to more fully characterize commercial fishing operations and provide sampling opportunities to augment NMFS's data collection programs. Partnership with the commercial fishing industry allows the Center to provide samples for stock assessment and fish biology research when traditional sampling sources might otherwise be unavailable. Table 1 includes all of the regulations specified at 50 CFR part 648 that participating vessels would be exempt from for at-sea sampling or when retaining and landing fish for research purposes. The exemptions listed in Table 1 are necessary for contracted vessels to acquire the biological samples needed to meet Center research objectives.
