p. Scoping Process.

The Commission's scoping process will help determine the required level of analysis and satisfy the NEPA scoping requirements, irrespective of whether the Commission prepares an environmental assessment or Environmental Impact Statement. Due to recent concerns with large gatherings related to COVID-19, we do not intend to hold in-person public scoping meetings or an in-person environmental site review. Rather, we will hold virtual public scoping meetings and a virtual environmental site reviews.

Scoping Meetings

Commission staff will hold two virtual public scoping meetings. An evening meeting will focus on receiving input from the public and a daytime meeting will focus on concerns of resource agencies, Native American tribes, and NGOs. We invite all interested agencies, Native American tribes, NGOs, and individuals to attend one of these meetings to assist us in identifying the scope of environmental

issues that should be analyzed in the NEPA document. The scoping meetings will be recorded by a court reporter. All oral and written comments will become part of the Commission's public record. Oral comments will be limited to 5 minutes in duration.

[Project No. 8936–000]

Far West Power Corporation; Notice of Authorization for Continued Project Operation

The Power Canal Hydroelectric Project is located on the tailrace canal of Pacific Gas and Electric Company's (PG&E) existing Potter Valley Project No. 77, on the East Fork Russian River, in Mendocino County, California. The license for Project No. 8936 was issued for a period ending April 14, 2022.

Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee(s) under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 8936 is issued to the Far West Power Corporation for a period effective April 15, 2022 through April 14, 2023 or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before April 14, 2023, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the

FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that the Far West Power Corporation is authorized to continue operation of the Power Canal Hydroelectric Project, until such time as the Commission orders disposition of the project.
