SUPPLEMENTARY INFORMATION: Overall the FPR Program provides creative and innovative science and technology and advanced business practices that enhance the domestic and global competitiveness of the U.S. wood products industry. Specifically, it addresses utilization needs of hardwood, southern conifer and western conifer resources. Because of the limited amount of funding for FPR, last year's RFA focused on creating new and improved wood uses and value-added products. Eligibility for the FPR is open to State agricultural experiment stations, land-grant colleges and universities, research foundations established by land-grant colleges and universities, colleges and universities receiving funds under the Act of October 10, 1962 (16 U.S.C. 582a et seq.), and accredited schools or colleges of veterinary medicine.

Background and Purpose

The FPR program was first funded by Congress in the FY 2012 Appropriations as a special research grant to be awarded competitively. The intent is to stimulate the generation of new knowledge and transfer technologies that are necessary to balance the sustainable use of U.S. forest resources and to maintain a vigorous, globally competitive domestic forest products industry. The FPR program is specifically designed to respond to current and emerging wood utilization issues, create new and improved value-added products, and provide technical information for the

production of cross laminated timber from our Nation's wood supply, which are critical to the sustainability of the national economy.

Implementation Plans

NIFA plans to consider stakeholder input received from this notice in developing the FY 2013 RFA. NIFA anticipates releasing the FY 2013 RFA in mid June, 2013.

Done in Washington, DC, this 9th day of April, 2013.

Ralph A. Otto,

Deputy Director, National Institute of Food and Agriculture.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

On behalf of the Committee for the Implementation of Textile Agreements (CITA), the Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration.

Title: Interim Procedures for Considering Requests under the Commercial Availability Provision of the United States-Peru Trade Promotion Agreement Implementation Act (Act).

Form Number(s): N/A.

OMB Control Number: 0625–0265.

Type of Request: Regular submission.

Burden Hours: 89.

Number of Respondents: 16 (10 for Requests; 3 for Responses; 3 for Rebuttals).

Average Hours per Response: 8 hours per request; 2 hours per response; and 1 hour per rebuttal.

Needs and Uses: The United States and Peru negotiated the U.S.-Peru Trade Promotion Agreement (the Agreement), which entered into force on February 1, 2009. Subject to the rules of origin in Annex 4.1 of the Agreement, pursuant to the textile provisions of the Agreement, a fabric, yarn, or fiber produced in Peru or the United States and traded between the two countries is entitled to duty-free tariff treatment. Annex 3–B of the Agreement also lists specific fabrics, yarns, and fibers that the two countries agreed are not available in commercial quantities in a timely manner from producers in Peru or the United States. The fabrics listed are commercially unavailable fabrics,

yarns, and fibers, which are also entitled to duty-free treatment despite not being produced in Peru or the United States.

The list of commercially unavailable fabrics, yarns, and fibers may be changed pursuant to the commercial availability provision in Chapter 3, Article 3.3, Paragraphs 5–7 of the Agreement. Section 203(o) of the Act implements the commercial availability provision of the Agreement. Under this provision, interested entities from Peru or the United States have the right to request that a specific fabric, yarn, or fiber be added to, or removed from, the list of commercially unavailable fabrics, yarns, and fibers in Annex 3–B.

Section 203(o) of the Act provides that the President may modify the list of fabrics, yarns, and fibers in Annex 3–B by determining whether additional fabrics, yarns, or fibers are not available in commercial quantities in a timely manner in the United States or Peru, and that the President will issue procedures governing the submission of requests and providing an opportunity for interested entities to submit comments. The President delegated the responsibility for publishing the procedures and administering commercial availability requests to CITA, which issues procedures and acts on requests through the U.S. Department of Commerce, Office of Textiles and Apparel (OTEXA) (*See* Proclamation No. 8341, 74 FR 4105, Jan. 22, 2009). Interim procedures to implement these responsibilities were published in the **Federal Register** on August 14, 2009 (*See* 74 FR 41111, Commercial Availability Procedures).

The intent of the Commercial Availability Procedures is to foster the use of U.S. and regional products by implementing procedures that allow products to be placed on or removed from a product list, on a timely basis, and in a manner that is consistent with normal business practice. The procedures are intended to facilitate the transmission of requests; allow the market to indicate the availability of the supply of products that are the subject of requests; make available promptly, to interested entities and the public, information regarding the requests for products and offers received for those products; ensure wide participation by interested entities and parties; allow for careful review and consideration of information provided to substantiate requests and responses; and provide timely public dissemination of information used by CITA in making commercial availability determinations.

CITA must collect certain information about fabric, yarn, or fiber technical specifications and the production
