Proposed Project: Public Health Service Polices on Research Misconduct (42 CFR part 93)—OMB No 0937-0198-Extension—Office of Resource Integrity.

Abstract: This is a request to extend the currently approved collection, OMB No 0937-0198, which involves two forms: PHS-6349 and PHS-6315. The purpose of the Institutional Assurance and Annual Report on Possible Research Misconduct form (PHS-6349) is to provide data on the amount of research misconduct activity occurring in

institutions conducting PHS-supported research, as well as providing an annual assurance that those institutions have established and will follow administrative policies and procedures for responding to allegations of research misconduct that comply with the Public Health Service (PHS) Regulations on Research Misconduct (42 CFR part 93). The purpose of the Assurance of Compliance by Sub-Award Recipients form (PHS-6315) is to establish a similar assurance of compliance with 42 CFR part 93 for sub-awardee institutions, as well as provide data on the amount of research misconduct activity occurring in those sub-awardee institutions. Research misconduct is defined as receipt of an allegation of research misconduct and/or the conduct of an inquiry and/or investigation into such allegations. These data enable the ORI to monitor institutional compliance with the PHS regulation.

Summary of the information collection: Lastly, the forms will be used to respond to congressional requests for information to prevent misuse of Federal funds and to protect the public interest.

Need and Proposed Use of the Information: Public Health Service Polices on Research Misconduct (42 CFR part 93)—OMB No 0937-0198-Extension—Office of Research Integrity.
