SUPPLEMENTARY INFORMATION:

Addition

On 3/11/2011 (76 FR 13362-13363), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed addition to the Procurement List.

Following the publication in the **Federal Register** of the initial notice containing this and other projects, the Committee received a comment from a self-identified small business owner objecting to the addition of the proposed list of product or service requirements to the Procurement List. While the comment did not specify a particular project, the commenter stated that adding these items would deny small business the opportunity to compete for these projects in the future.

The Javits-Wagner-O'Day Act and its legislative history unmistakably show that Congress understood the importance of job creation for people who are blind or have severe disabilities that would take place when products or services are added to the Procurement List. Through the Act, Congress directed the Committee to make appropriate determinations that would benefit people who are blind or severely disabled. Congress also realized that the decisions could impact other groups. Therefore, when the Committee makes appropriate determinations to add items to the Procurement List, it is meeting its statutory responsibility. In this case, the Committee has determined that this project is suitable for procurement by the government and will be added to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agency to provide the service and impact of the addition on the current or most recent contractors, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will provide the service to the Government.

2. The action will result in authorizing small entities to provide the service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

End of Certification

Accordingly, the following service is added to the Procurement List:
