Gulf Landing LLC Liquefied Natural Gas Deepwater Port License Application; Final Environmental Impact Statement Supplementary Material**AGENCY:** Coast Guard, DHS, and Maritime Administration, DOT.**ACTION:** Notice of availability.

SUMMARY: The Coast Guard and the Maritime Administration (MARAD) announce the availability of material supplementing the Final Environmental Impact Statement (FEIS) for the Gulf Landing LLC Liquefied Natural Gas Deepwater Port License Application. The supplementary material corrects errors that appear in the FEIS.

FOR FURTHER INFORMATION CONTACT: If you have questions about the supplementary material, you may contact Lieutenant Commander Derek Dostie, U.S. Coast Guard at 202-267-0662 or ddostie@comdt.uscg.mil. If you have questions about this FEIS or the NEPA process, please contact Joan Lang, U.S. Coast Guard at 202-267-2498 or jang@comdt.uscg.mil. If you have questions on viewing or submitting material to the docket, call Andrea M. Jenkins, Program Manager, Docket Operations, telephone 202-366-0271.

SUPPLEMENTARY INFORMATION: On December 3, 2004, the Coast Guard and MARAD notice of availability for the Gulf Landing LLC Liquefied Natural Gas Deepwater Port License FEIS appeared in the **Federal Register** (69 FR 70270). Subsequently, we discovered and corrected errors in the text and in Appendix G of the FEIS. These corrections appear in an errata sheet and revised Appendix G which, along with the FEIS itself, are now available in the docket on the Internet at <http://dms.dot.gov> under docket number USCG-2004-16860. You may also view these materials in person at the Docket Management Facility in room PL-401 on the Plaza level of the Nassif Building, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

The corrections relate to the ichthyoplankton impact assessments that were developed in coordination with the National Oceanic and

Atmospheric Administration National Marine Fisheries Service (NOAA NMFS). Results of the assessment showed that the expected (average) red drum base-case potential loss was equivalent to 0.8% of the 2002 Gulf of Mexico commercial and recreational harvest (representing 28,335 age-1 equivalent red drum fish, or an equivalent yield of 100,985 pounds). The agreed upon range for the highest and lowest probable impacts were between 3.8% and 0.1% of the 2002 Gulf of Mexico commercial and recreational harvest (representing 137,334 and 2,353 age-1 equivalent red drum fish, or an equivalent yield of 489,148 and 8,381 pounds, respectively). Calculated potential impacts on all other species of concern analyzed were at least an order of magnitude lower than for red drum and can be found in detail in the correction documents.

Please note that the percentages are in comparison to the total Gulf of Mexico landings, and not to the entire fish stock of the species of concern. Equivalent yield is in no way intended to, or capable of predicting direct losses to fish landings or harvest. For example: an equivalent yield that represents .8% of the red drum fishing harvest is equivalent to an additional .8% fishing stress on the population, when compared to that harvest, and not a .8% loss of that harvest.

Title: Customer Comment Card.

Type of Request: Emergency processing request of new collection.
OMB Control Number: Not yet assigned.

Form(s): TSA Customer Comment Card.

Affected Public: Airport passengers.

Abstract: This collection establishes a voluntary program for airport passengers to provide feedback to the TSA regarding their experiences with TSA security procedures. The collection of information allows the TSA to determine customer concerns about security procedures and policies. TSA intends to make available to airports a Customer Comment Card, which will collect feedback and, if the passenger desires, contact information so that TSA staff can respond to the passenger's comment. For passengers who deposit their cards in the designated drop-boxes, TSA airport staff will collect the cards, categorize comments, enter the results into an online system for reporting, and respond to passengers as necessary. Passengers also have the option to mail the cards directly to TSA. TSA also will continue to provide the TSA Contact Center for passengers to make comments independently of airport involvement. The TSA is requesting emergency clearance so that it can immediately collect and respond in a timely manner to comprehensive

feedback, which serves as critical input when the TSA must modify its screening procedures.

Number of Respondents: 1,783,800.

Estimated Annual Burden Hours: An estimated 150,880 hours.

TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
