

completeness including evidence of prior notification and payment of application fee. Applications will not be processed until deemed complete. We will notify the applicant if additional information is necessary. We encourage the submission of applications well in advance of project dates in order to allow sufficient time for review under this part.

(b) We will review the information required by § 389.4. When the application is deemed complete, we will publish a notice in the **Federal Register** describing the project and platform jacket involved, advising that all relevant information reasonably needed to assess the transportation and launching requirements will be made available to interested parties upon request. The notice will request that information on the availability of coastwise-qualified launch barges be submitted within thirty (30) days after the publication date. We will also notify the coastwise-qualified owners/operators who have registered with us as per § 389.3.

(c) The Maritime Administration will review any submittals whereby an owner or operator of a coastwise-qualified launch barge asserts they are available and we will facilitate discussions between the offeror and the platform jacket owner/operator. If the parties are unable to reach agreement, we will make a determination regarding availability.

(d) If needed, the Maritime Administration's technical personnel will review the data required in § 389.4. The data must be complete and current. Any data submitted will not be returned to the applicant and will be retained by us on file for a period of time. The Maritime Administration review will not substitute for the review and approval by either a major classification society (ABS, BV, LR, GL, DNV, NK) or the U.S. Coast Guard. The Maritime Administration review will not verify the accuracy or correctness of the applicant's engineering proposal; rather, it will only pertain to the general reasonableness and soundness of the technical approach.

(e) The Maritime Administration will deny the application if:

(1) We find the applicant did not comply with the requirements in § 389.3 or § 389.4; or,

(2) We determine a suitable coastwise-qualified launch barge is reasonably available.

(f) The Maritime Administration will issue a determination of non-availability if we determine that no suitable coastwise-qualified vessel is reasonably available.

(g) Our determination will be issued within ninety (90) days from the date the application notice was published in the **Federal Register**.

(g) Our determination of non-availability will expire one-hundred and twenty (120) days after the date of issuance, unless we provide an extension for good cause.

Maritime Administration determinations in this regard should NOT be interpreted as a change setting new federal maritime precedents. The Maritime Administration continues to support the Jones Act, the Passenger Vessel Services Act, and other federal U.S.-flag requirements.

By order of the Maritime Administrator.

Dated: May 19, 2008.

Leonard Sutter,

Secretary, Maritime Administration.
