DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

Agency: U.S. Census Bureau.

Title: Annual Capital Expenditures Survey.

OMB Control Number: 0607-0782.

Form Number(s): ACE-1(S), ACE-1(M), ACE-1(L), ACE-2.

Type of Request: Revision of a currently approved collection.

Number of Respondents: 70,127.

Average Hours per Response: 2 hours and 16 minutes.

Burden Hours: 159,134.

Needs and Uses: The U.S. Census Bureau plans to conduct the 2018

through 2020 Annual Capital Expenditures Survey (ACES). This survey collects data on fixed assets and depreciation, sales and receipts, capitalized computer software, and capital expenditures for new and used structures and equipment. The ACES is the sole source of detailed comprehensive statistics on actual business spending for private non-farm companies, organizations, and associations operating in the United States. Both employer and nonemployer companies are included in the survey.

The Bureau of Economic Analysis is the primary Federal user of ACES data. BEA relies on ACES data to refine and evaluate annual estimates of investment in structures and equipment in the national income and product accounts, compile annual input-output tables, and compute gross domestic product by industry. The Federal Reserve Board uses these data to improve estimates of investment indicators for monetary policy. The Bureau of Labor Statistics uses these data to improve estimates of capital stocks for productivity analysis. The Centers for Medicare and Medicaid Services use these data for developing estimates of investment in private health care structures and equipment as a part of the National Health Expenditure Accounts. Industry analysts use these data for market analysis, economic forecasting, identifying business opportunities, product development, and business planning.

Planned changes from the previous ACES are the elimination of detailed capital expenditures by type of structure and type of equipment. These data are collected in years ending in -2 and -7, concurrently with the Economic Census. They are not in scope of this notice, which covers ACES data collection for 2018 through 2020.

The Census Bureau also plans to add questions on the dollar value of new and used robotics expenditures beginning with the 2018 survey. These questions will gauge prevalence of robotics use by detail North American Industry Classification System (NAICS) industries.

Affected Public: Business or other for-profit; Not-for-profit institutions.

Frequency: Annually.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Sections 131 and 182.
