

1320.8(d)(1), all information collections require approval. We may not conduct or sponsor, nor are you required to respond to, a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The order Testudines, which encompasses tortoises and freshwater and marine turtles, is among the most threatened group of vertebrates in the world. However, turtles are frequently observed during everyday activities, such as while walking through a park, driving along a roadway, or kayaking in a river or pond. Local citizen-science projects focused on single species (such as box turtles) have provided valuable demographic

information for turtle populations, but these projects are isolated both spatially and specifically (*i.e.*, focused on one species). This project would use sighting information supplied by citizens to fill gaps in our knowledge of turtle distributions throughout Northern Florida. When a citizen observes a turtle, they would document the species (if possible), location (latitude/longitude collected via cell phone), date, and time, and they would photograph the animal. We would also ask each contributor to provide their initials (not full name) and a way to contact them if questions about the entry arise (*e.g.*, phone number or email address). The sighting information will be mapped and used to develop species-distribution maps.

Abstract: Sections 504 and 508 of the Rehabilitation Act of 1973, require equivalent access for persons with disabilities to public facilities, learning materials, and other types of information resources. Traditionally, National Park Service brochures combine text, illustrations, photographs, and maps to provide an overview of the park's history and significance. Nearly 80% of park visitors report looking at the park's printed brochure as the most common activity at any NPS site. The industry and academic research about the quality and modalities used to develop and deliver audio descriptions are limited. More than often the techniques focus on video and live performance, versus static material such as print brochures or two-dimensional exhibits. The NPS is working in partnership with the UniDescription research project at the University of Hawaii to conduct focus groups and user evaluations of digital content, web tools, and mobile apps designed to address and develop alternate formats that will make equivalent experiences and information in print materials accessible. Audio Descriptions will be created and designed to make information in print materials accessible to people who are blind, have low vision or have a print disability.

Submission to the Office of Management and Budget for Review and Approval; Procedures and Criteria for Approval or Disapproval of State Program Submissions

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before April 24, 2023.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to Mark Gehlhar, Office of Surface Mining Reclamation and Enforcement, 1849 C Street NW, Room 4556-MIB, Washington, DC 20240, or by email to mgehlhar@osmre.gov. Please reference OMB Control Number 1029-0024 in the subject line of your comments.

this ICR, contact Mark Gehlhar by email at mgehlhar@osmre.gov, or by telephone at 202-208-2716. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) is the collection necessary to the proper functions of the agency; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the agency enhance the quality, utility, and clarity of the information to be collected; and (5) how might the agency minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
