cooling the SFP by adding makeup water in the unlikely event that there is a complete loss of cooling to the SFP conforms to NRC guidance.

The NRC staff has completed its evaluation of the proposed action and concludes that the proposed revision to the thermal-hydraulic analysis complies with the applicable regulatory documents and will allow for the continued safe storage of spent fuel.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not have a potential to affect any historic sites. The proposed action does not involve any physical features of the plant or procedure changes involving a potential nonradiological release. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for the DAEC dated March 1973.

Agencies and Persons Consulted

On July 11, 2001, the staff consulted with the Iowa State official, Mr. D. McGhee of the Department of Public Health, regarding the environmental impact of the proposed action. The State official had no comments.

## **Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated November 17, 2000, as supplemented by letters dated February 16 and April 9, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC web site, http:// www.nrc.gov/NRC/ADAMS/index.html. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC Public Document Room (PDR) Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail at pdr@nrc.gov.

Dated at Rockville, Maryland, this 18th day of July 2001.

For the Nuclear Regulatory Commission. Carl F. Lyon,

Project Manager, Section 1, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

## OFFICE OF PERSONNEL MANAGEMENT

Proposed Collection; Comment Request Review of a Revised Information Collection; OPM 1417

**AGENCY:** Office of Personnel

Management. **ACTION:** Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104–13, May 22, 1995), this notice announces that the Office of Personnel Management intends to submit to the Office of Management and Budget a request for clearance of a revised information collection. OPM Form 1417, CFC Online Results Report, is used to record Combined Federal Campaign pledge results from each campaign office locally.

Each year, approximately 1.5 million Federal employees make donations to the CFC. These donations are managed by approximately 370 Principle Combined Fund Organizations (PCFOs) across the country. The Form 1417 is submitted by every PCFO annually to report these donations. Each form takes approximately 20 minutes to complete. The annual estimated burden is 124 hours.

Comments are particularly invited on:

- —Whether this collection of information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility;
- Whether our estimate of the public burden of this collection is accurate, and based on valid assumptions and methodology; and
- —Ways in which we can minimize the burden of the collection of information on those who are to respond, through use of the appropriate technological collection techniques or other forms of information technology.

For copies of this proposal, contact Mary Beth Smith-Toomey on 202/606– 8358, or E-mail to mbtoomey@opm.gov. Please include your mailing address with your request.

**DATES:** Comments on this proposal should be received on or before September 24, 2001.

ADDRESSES: Send or deliver comments to: Elizabeth Barber, Office of CFC Operations, U.S. Office of Personnel Management, 1900 E Street, NW., Room 5450, Washington, DC 20415.

## FOR INFORMATION REGARDING ADMINISTRATIVE COORDINATION CONTACT:

Elizabeth Barber, Office of CFC Operations, U.S. Office of Personnel Management, 1900 E Street, NW., Room 5450, Washington, DC 20415, (202) 606– 2564

U.S. Office of Personnel Management.

Steven R. Cohen,

Acting Director.
