

previous corresponding scheduling season are not eligible for relief.

4. Slots authorized at DCA by Department of Transportation or FAA exemptions are not eligible for relief.

Issued in Washington, DC, on September 15, 2023.

Marc A. Nichols,

Chief Counsel.

Alyce Hood-Fleming,

Vice President, System Operations Services.

[FR Doc. 2023–20416 Filed 9–18–23; 4:15 pm]

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 95

[Docket No. 31507; Amdt. No. 574]

IFR Altitudes; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This amendment adopts miscellaneous amendments to the required IFR (instrument flight rules) altitudes and changeover points for certain Federal airways, jet routes, or direct routes for which a minimum or maximum en route authorized IFR altitude is prescribed. This regulatory action is needed because of changes occurring in the National Airspace System. These changes are designed to provide for the safe and efficient use of the navigable airspace under instrument conditions in the affected areas.

DATES: Effective 0901 UTC, October 05, 2023.

FOR FURTHER INFORMATION CONTACT:

Thomas J. Nichols, Flight Procedures and Airspace Group, Flight Technologies and Procedures Division,

Flight Standards Service, Federal Aviation Administration. Mailing Address: FAA Mike Monroney Aeronautical Center, Flight Procedures and Airspace Group, 6500 South MacArthur Blvd., STB Annex, Bldg. 26, Room 217, Oklahoma City, OK 73099. Telephone: (405) 954–1139.

SUPPLEMENTARY INFORMATION: This amendment to part 95 of the Federal Aviation Regulations (14 CFR part 95) amends, suspends, or revokes IFR altitudes governing the operation of all aircraft in flight over a specified route or any portion of that route, as well as the changeover points (COPs) for Federal airways, jet routes, or direct routes as prescribed in part 95.

The Rule

The specified IFR altitudes, when used in conjunction with the prescribed changeover points for those routes, ensure navigation aid coverage that is adequate for safe flight operations and free of frequency interference. The reasons and circumstances that create the need for this amendment involve matters of flight safety and operational efficiency in the National Airspace System, are related to published aeronautical charts that are essential to the user, and provide for the safe and efficient use of the navigable airspace. In addition, those various reasons or circumstances require making this amendment effective before the next scheduled charting and publication date of the flight information to assure its timely availability to the user. The effective date of this amendment reflects those considerations. In view of the close and immediate relationship between these regulatory changes and safety in air commerce, I find that notice and public procedure before adopting this amendment are impracticable and contrary to the public interest and that good cause exists for making the

amendment effective in less than 30 days.

Conclusion

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 95

Airspace, Navigation (air).

Issued in Washington, DC, on September 1, 2023.

Thomas J. Nichols,

Aviation Safety, Flight Standards Service, Manager, Standards Section, Flight Procedures & Airspace Group, Flight Technologies and Procedures Division.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, part 95 of the Federal Aviation Regulations (14 CFR part 95) is amended as follows effective at 0901 UTC, October 05, 2023.

PART 95—IFR ALTITUDES

■ 1. The authority citation for part 95 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113 and 14 CFR 11.49(b)(2).

■ 2. Part 95 is amended to read as follows:

Missouri AML Plan

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are approving an amendment to the Missouri Abandoned Mine Land Reclamation Fund and Abandoned Mine Reclamation and Restoration regulations under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). The amendment was submitted in response to two executive orders by the Governor of Missouri. Each State agency was directed to review and amend their regulations to ensure that they were efficient, effective, and necessary, and to significantly reduce the volume of regulations. Missouri's amendments to their regulations will replace text to improve clarity and remove redundant sections already addressed under their Abandoned Mine State Reclamation Plan or elsewhere in their statutes and regulations (hereinafter, the Missouri Plan).

DATES: Effective October 20, 2023.

FOR FURTHER INFORMATION CONTACT:

William Joseph, Chief, Alton Field Division, Office of Surface Mining Reclamation and Enforcement, 501 Belle Street, Suite 216, Alton, Illinois 62002. Telephone (618) 463–6460. Email: bjoseph@osmre.gov.

SUPPLEMENTARY INFORMATION:

- I. Background on the Missouri Program
- II. Submission of the Amendment
- III. OSMRE's Findings

- IV. Summary and Disposition of Comments
- V. OSMRE's Decision
- VI. Statutory and Executive Order Reviews

I. Background on the Missouri Program

The Abandoned Mine Land Reclamation Program was established by Title IV of the Act (30 U.S.C. 1201 *et seq.*) in response to concerns over extensive environmental damage caused by past coal mining activities. The program is funded by a reclamation fee collected on each ton of coal that is produced. The money collected is used to finance the reclamation of abandoned coal mines and other authorized activities. Section 405 of the Act allows States and Tribes to assume exclusive responsibility for reclamation activity within the State or on Tribal lands if they develop and submit for approval to the Secretary of the Interior a program (often referred to as a plan) for the reclamation of abandoned coal mines. On the basis of these criteria, the Secretary of the Interior approved the Missouri Plan effective January 29, 1982. You can find background information on the Missouri Plan, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Missouri Plan in the January 29, 1982, **Federal Register** (47 FR 4253). You can also find later actions concerning the Missouri Plan and amendments to the Plan at 30 CFR 925.20 and 925.25.

II. Submission of the Amendment

By letter dated March 6, 2019 (Administrative Record No. MO–685), Missouri sent us an amendment to its Abandoned Mine Land Reclamation Fund and Abandoned Mine Reclamation and Restoration regulations under SMCRA (30 U.S.C. 1201 *et seq.*) on its own initiative. We announced receipt of the proposed amendment in the May 10, 2019, **Federal Register** (84 FR 20597). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment. We did not hold a public hearing or meeting because one was not requested. We did not receive any public comments on the proposed amendment. The public comment period ended on June 10, 2019.

III. OSMRE's Findings

The following are the findings we made concerning the amendment under SMCRA and the Federal regulations at 30 CFR 884. We are approving the amendment as described below.

Missouri Executive Order 17–03 (January 10, 2017) and Missouri Executive Order 18–04 (June 29, 2018) directed Missouri State agencies to review and revise existing state regulations to reduce textual length and regulatory burden. Several of Missouri's revisions were proposed in response to these Orders.

Missouri proposed to add more specific statutory citations to section 10 CSR 40–9.010. We find the additional citations to be relevant and appropriate for inclusion.

Missouri proposed to replace the phrase “shall include:” with “includes:” in 10 CSR 40–9.010(2) with the goal of increasing clarity. We find that this change does not alter the meaning of the regulation, and therefore we approve the change.

Missouri proposed to revise 10 CSR 40–9.010 (3) from “the fund *shall* be used . . .” to “the fund *are to be* used . . .” (emphasis added). The State has determined that this change provides better clarity. OSMRE finds that this change does not alter the meaning of the regulation, and therefore we approve the change.

Missouri proposed to revise section 10 CSR 40–9.020(1), replacing “*shall* be used to offset the cost of reclamation . . .” with “*are to be* used to offset the cost of reclamation . . .” (emphasis added). Missouri further proposed changing “if not *required* for further reclamation . . .” to “if not *needed* for further reclamation . . .” (emphasis added). Missouri offers these changes in the assertion it improves the clarity of the regulation. OSMRE finds this does not alter the meaning of the regulation and approves.

Missouri proposed to remove paragraphs 10 CSR 40–9.020(4) and (5) from their regulations entirely. These paragraphs address reclamation objectives and priorities as well as reclamation project evaluation factors. Reclamation goals and objectives are already included in State law at Mo.
