#### 7 CFR Part 301

[Docket No. 02-042-2]

#### Witchweed; Regulated Areas

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Final rule.

**SUMMARY:** We are adopting as a final rule, with several changes, an interim rule that amended the witchweed quarantine and regulations by updating the list of regulated areas to add or remove areas in North Carolina and South Carolina. Based on information received from the States of North Carolina and South Carolina, this final rule adds two farms and removes four from the list of regulated areas that appeared in the interim rule. These actions are necessary to prevent the artificial spread of witchweed from areas where the weed has been detected and to remove restrictions that are no longer necessary on the interstate movement of regulated articles from areas where witchweed has been eradicated.

**EFFECTIVE DATE:** August 29, 2003.

**FOR FURTHER INFORMATION CONTACT:** Dr. Alan V. Tasker, National Weed Program Coordinator, Invasive Species and Pest Management, PPQ, APHIS, 4700 River Road Unit 134, Riverdale, MD 20737-1236; (301) 734-5708.

#### SUPPLEMENTARY INFORMATION:

##### Background

Witchweed (*Striga* spp.) is a parasitic plant that feeds off the roots of its host, causing degeneration of corn, sorghum, and other grassy crops. Within the United States, witchweed is only found in parts of North Carolina and South

Carolina. The witchweed quarantine and regulations, contained in 7 CFR 301.80 through 301.80-10 (referred to below as the regulations), quarantine the States of North Carolina and South Carolina and restrict the interstate movement of certain articles from regulated areas in those States for the purpose of preventing the spread of witchweed.

In an interim rule effective February 4, 2003, and published in the **Federal Register** on February 10, 2003 (68 FR 6603-6605, Docket No. 02-042-1), we amended the list of regulated areas in the regulations by adding and removing areas in North Carolina and South Carolina. These actions were necessary to prevent the artificial spread of witchweed from areas where the weed has been detected and to remove restrictions that are no longer necessary on the interstate movement of regulated articles from areas where witchweed has been eradicated.

We solicited comments concerning the interim rule for 60 days ending April 11, 2003. We received one comment by that date, from a weed specialist with the North Carolina Department of Agriculture and Consumer Services. The commenter informed us that one of the farms in Cumberland County that was listed in the interim rule has been released from quarantine by the State of North Carolina and thus should no longer be listed as a regulated area in the regulations. Given that the witchweed regulated areas described in our regulations are derived from, and are intended to be consistent with, the regulated areas described by our State cooperators in their quarantine regulations, we have removed the farm cited by the commenter from the list in § 301.80-2a of regulated areas in North Carolina. Similarly, following the close of the comment period, the State of South Carolina brought to our attention that it had amended its witchweed quarantine by adding two farms in Horry County and by removing three farms, one in Horry County and two in Marion County. Again, for consistency with the regulated areas described by our State cooperators in their quarantine regulations, we have amended the list in § 301.80-2a of regulated areas in South Carolina to reflect the changes made by the State of South Carolina. We have also reordered the listing of regulated

areas in South Carolina so that they appear in alphabetical order, and have made several nonsubstantive editorial changes for clarity or to correct typographical errors.

Therefore, for the reasons given in the interim rule and in this document, we are adopting the interim rule as a final rule, with the changes discussed in this document.

This final rule also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

#### Effective Date

Pursuant to the administrative procedure provisions in 5 U.S.C. 553, we find good cause for making this rule effective less than 30 days after publication in the **Federal Register**. The interim rule adopted as final by this rule was effective on February 4, 2003. This rule amends the description of the regulated areas in the interim rule. Immediate action is necessary to amend the description of the regulated areas in order to prevent the artificial spread of witchweed from areas where the weed has been detected and to remove restrictions that are no longer necessary on the interstate movement of regulated articles from areas where witchweed has been eradicated. Therefore, the Administrator of the Animal and Plant Health Inspection Service has determined that this rule should be effective upon publication in the **Federal Register**.

[Docket No. 02-121-3]

#### Mexican Fruit Fly; Removal of Regulated Area

**AGENCY:** Animal and Plant Health Inspection Service, USDA.

**ACTION:** Interim rule and request for comments.

**SUMMARY:** We are amending the Mexican fruit fly regulations by removing a portion of Los Angeles County, CA, from the list of regulated areas and removing restrictions on the interstate movement of regulated articles from that area. This action is necessary to relieve restrictions that are no longer necessary to prevent the spread of the Mexican fruit fly into noninfested areas of the United States.

**DATES:** This interim rule was effective August 26, 2003. We will consider all comments that we receive on or before October 28, 2003.

**ADDRESSES:** You may submit comments by postal mail/commercial delivery or by e-mail. If you use postal mail/commercial delivery, please send four copies of your comment (an original and three copies) to: Docket No. 02-121-3, Regulatory Analysis and Development, PPD, APHIS, Station 3C71, 4700 River Road Unit 118, Riverdale, MD 20737-1238.
