EXPORT-IMPORT BANK

[Public Notice: 2018-6008]

Agency Information Collection Activities: Final Collection; Comment Request

AGENCY: Export-Import Bank of the United States.

ACTION: Submission for OMB review and comments request.

SUMMARY: The Export-Import Bank of the United States (EXIM), as a part of its continuing effort to reduce paperwork and respondent burden, invites the

¹¹ This figure of 120 transmission entities is based on the assumption that each agreement will be between 1 nuclear plant and 2 transmission entities (60 × 2 = 120). However, there is some double counting in this figure because some transmission entities may be party to multiple agreements with multiple nuclear plants. The double counting does not affect the burden estimate, and the correct number of unique respondents will be reported to OMB.

¹² The 180 respondents affected by the reporting requirements are also affected by the recordkeeping requirements.

¹³ The reporting requirements have not changed. The decrease in the number of respondents is due to: a) normal fluctuations in industry (e.g., companies merging and splitting, and coming into and going out of business), and b) no new agreements being issued due to the lack of new nuclear plants being developed.

general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995.

This form will enable EXIM to identify the specific details of the proposed co-financing transaction between a U.S. exporter, EXIM, and a foreign export credit agency; the information collected includes vital facts such as the amount of U.S.-made content in the export, the amount of financing requested from EXIM, and the proposed financing amount from the foreign export credit agency. These details are necessary for approving this unique transaction structure and coordinating our support with that of the foreign export credit agency to ultimately complete the transaction and support U.S. exports—and U.S. jobs.

DATES: Comments should be received on or before May 29, 2018 to be assured of consideration.

ADDRESSES: Comments may be submitted electronically on www.regulations.gov (EIB 11-04) or by email to Mia.Johnson@exim.gov, or by mail to Mia L. Johnson, Export-Import Bank of the United States, 811 Vermont Ave. NW, Washington, DC 20571. The form can be viewed at: <https://www.exim.gov/sites/default/files/pub/pending/eib11-04.pdf>.

Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office

of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before May 29, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

SUPPLEMENTARY INFORMATION:

As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Number of Respondents and Responses: 5,000 respondents; 40,900 responses.

Estimated Time per Response: 0.10-0.50 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. Sections 154(i), 218 and 303(r) of the Communications Act of 1934, as amended.

Total Annual Burden: 6,950 hours.

Total Annual Cost: No Cost.

Nature and Extent of Confidentiality: DIRS filings consists of sensitive information that for national security and/or commercial reasons, the Commission will treat the filings at the time of receipt as non-public and presumptively confidential. However, DIRS filings will be shared with the Department of Homeland Security and the other Federal agencies authorized to participate in the National Response Framework Emergency Support Function-2 (ESF-2)(Communications). The Commission may publish or otherwise share anonymized summaries of DIRS filings at its discretion.

Needs and Uses: In response to the events of September 11, 2001, the Federal Communications Commission (Commission or FCC) created an Emergency Contact Information System to assist the Commission in ensuring rapid restoration of communications capabilities after disruption by a terrorist threat or attack, and to ensure that public safety, public health, and other emergency and defense personnel have effective communications services available to them in the immediate aftermath of any terrorist attack within the United States. The Commission submitted, and OMB approved, a collection through which key communications providers could voluntarily provide contact information. The Commission's Public Safety and Homeland Security Bureau (PSHSB) developed the Disaster Information Reporting System (DIRS) that uses electronic forms to collect Emergency Contact Information forms and through which participants may inform the Commission of damage to communications infrastructure and facilities due to major emergencies and may request resources for restoration. The Commission updated the process by increasing the number of reporting entities to ensure inclusion of wireless, wireline, broadcast, cable, VoIP, and broadband internet access communications providers. The Commission is requesting a renewal of the currently approved collection. It is imperative that the Disaster Information Reporting System be in place so that the Commission has an accurate picture of the communications landscape during disasters.

Statutory authority for this collection of information is contained in 47 U.S.C. 154(i), 218, 303(r) and 47 CFR Section 0.181(h).
