DSPO has contracted with the center for Naval Analyses (CNA) to assist the Services in meeting the requirements set forth in DoD Instruction 6490.16 that all suicide prevention activities are developed from a relevant evidence-base and have an evaluation capability prior to implementation. CNA, in conjunction with the participating Services (i.e., Air Force, Army, Navy, and Special Operations Command, propose an information collection covering LMS evaluation activities specific to the needs of each respective Service to assess the implementation, acceptability, and/or effect of their specific LMS activities and materials. Depending on the nature of the selected evaluation activities, study data will be collected via key informant (KI) interviews and/or a survey.

This **Federal Register** Notice covers the evaluation activity specific to the Air Force. The intent of the voluntary Air Force Time-Based Prevention (TBP) KI Interviews is to help the Air Force gain a better understanding of the implementation and utility of the Air Force's TBP communications and messaging, as well as barriers to implementation.

The Air Force will use the results of the KI interviews to tailor their TBP LMS activities, materials, messaging, training, and outreach efforts to maximize their effectiveness with their Servicemembers and communities.
