Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276–0361.

Proposed Project: 2023–2026 National Survey on Drug Use and Health: Methodological Field Tests (OMB No. 0930–0290)—Extension

The National Survey on Drug Use and Health (NSDUH) is a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. The data are used to provide estimates of substance use and mental illness at the national, state, and substate levels.

NSDUH data also help to identify the extent of substance use and mental illness among different subgroups, estimate trends over time, and determine the need for treatment services. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), Federal Government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources. Methodological tests will continue to examine the feasibility, quality, and efficiency of new procedures or revisions to existing survey protocol. Specifically, the tests will measure the reliability and validity of certain questionnaire sections and items through multiple measurements on a set of respondents; assess new methods for gaining cooperation and participation of respondents with the goal of increasing response and decreasing potential bias in the survey estimates; and assess the impact of new sampling techniques and technologies on respondent behavior and reporting. Research will involve focus groups, cognitive laboratory testing, and field tests. Prior to each

methodological test, a separate clearance memo (under this generic clearance) will be presented to OMB for review. These methodological tests will continue to examine ways to increase data quality, lower operating costs, and gain a better understanding of sources and effects of non-sampling error on NSDUH estimates. Particular attention will be given to minimizing the impact of design changes so survey data can be comparable over time. If findings suggest changes that might lead to improvements to the study, current procedures or data collection instruments may be revised. The number of respondents to be included in each field test will vary, depending on the nature of the subject being tested and the target population. However, the total estimated response burden is 14,801 hours. The exact number of subjects and burden hours for each test are unknown at this time, but will be clearly outlined in each individual submission. These estimated burden hours over three years are as follows:

ESTIMATED TOTAL BURDEN FOR NSDUH METHODOLOGICAL FIELD TESTS

Activity	Number of respondents	Responses per respondent	Total number of responses	Average burden per response	Total burden (hrs.)
a. Focus Groups	378	1	378	2.0 hrs	756
b. Respondent screening for a	473	1	473	0.083 hr	39
c. Cognitive testing	420	1	420	1.0 hr	420
d. Respondent screening for c	800	1	800	0.083 hr	66
e. Field Tests	12,000	1	12,000	1.0 hr	12,000
f. Household screening for e	16,200	1	16,200	0.083 hr	1,345
g. Screening Verification for e	804	1	804	0.067 hr	54
h. Interview Verification for e	1,800	1	1,800	0.067 hr	121
Total	32,875		32,875		14,801

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Alicia Broadus,
Public Health Advisor.

Substance Abuse and Mental Health Services Administration

Meeting of the Substance Abuse and Mental Health Services Administration Center for Substance Abuse Prevention National Advisory Council; Correction

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.
ACTION: Notice; correction.

SUMMARY: The Substance Abuse and Mental Health Services Administration published a document in the **Federal Register** of April 5, 2023, announcing the meeting of the SAMHSA Center for Substance Abuse Prevention National

Advisory Council (CSAP NAC) of April 25, 2023. The document contained incorrect date in the **DATES** section.

FOR FURTHER INFORMATION CONTACT: Michelle Mcvay, michelle.mcvay@samhsa.hhs.gov. Telephone number (240) 276–0446.

SUPPLEMENTARY INFORMATION: Correction

In the **Federal Register** of April 5, 2023, in FR Doc. 2023–07033, on page 20175, in the second column, correct the **DATES** caption to read:

DATES: April 25, 2023, 9:00 a.m. to approximately 4:00 p.m. EDT, Open
