

Final Results of the Administrative Review of Oil Country Tubular Goods, Other Than Drill Pipe from Korea, dated March 10, 2008, on file in the CRU. There were no changes related to Nexteel from the Preliminary Results.

Final Results of Review

As a result of our review, we determine that the following weighted-average margins exist for the period August 1, 2005, through July 25, 2006:

Manufacturer/Exporter	Margin (percent)
SeAH Steel Corporation	0.65
Husteel Co., Ltd.	0.29(de minimis)
Nexteel Co., Ltd.	0.00

Cash Deposit Requirements

Pursuant to section 751(d)(2) of the Act and 19 CFR 351.222(i)(2)(i), the Department revoked this order and notified U.S. Customs and Border Protection (CBP) to discontinue suspension of liquidation and collection of cash deposits on entries of the subject merchandise entered or withdrawn from warehouse on or after July 25, 2006, the effective date of revocation of this antidumping duty AD order. *See Revocation.*

Assessment Rates

The Department will determine, and (CBP) shall assess, antidumping duties on all appropriate entries, pursuant to section 751(a)(1)(B) of the Act, and 19 CFR 351.212(b). The Department calculated importer-specific duty assessment rates (or, when the importer was unknown by the respondent, customer-specific duty assessment rates) on the basis of the ratio of the total amount of antidumping duties calculated for the examined sales observations involving each importer to the total entered value of the examined sales observations for that importer. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

The Department clarified its "automatic assessment" regulation on May 6, 2003. This clarification will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the "All Others" rate if there is no rate for the intermediate company(ies) involved in the transaction. For a discussion of this clarification, *see Notice of Policy*

Concerning Assessment of Antidumping Duties, 68 FR 23954 (May 6, 2003).

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of administrative review and this notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 10, 2008.

David M. Spooner,
Assistant Secretary for Import
Administration.

Sodium Metal from France: Postponement of Preliminary Determination of Antidumping Duty Investigation

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

EFFECTIVE DATE: March 18, 2008.

FOR FURTHER INFORMATION CONTACT:

Dennis McClure or Joy Zhang, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone: (202) 482-5973 or (202) 482-1168, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 13, 2007, the Department of Commerce (the Department) initiated the antidumping duty investigation of sodium metal from France. *See Sodium Metal from France: Notice of Initiation of Antidumping Duty Investigation*, 72 FR 65295 (November 20, 2007). The notice of initiation stated that the Department would issue its preliminary determination for this investigation no later than 140 days after the date of issuance of the initiation, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act). The preliminary determination is currently due no later than April 1, 2008.

Postponement of Preliminary Determination

On February 29, 2008, the petitioner, E.I. DuPont de Nemours & Co. Inc., made a timely request pursuant to section 733(c)(1)(A) of the Act and 19 CFR 351.205(b)(2) and (e) for a 50-day postponement of the preliminary determination. The petitioner requested postponement of the preliminary determination in order to allow for additional time to evaluate the respondent's questionnaire response in this investigation. Under section 733(c)(1)(A) of the Act, if the petitioner makes a timely request for an extension of the period within which the preliminary determination must be made under subsection (b)(1), then the Department may postpone making the preliminary determination under subsection (b)(1) until not later than the 190th day after the date on which the administrative authority initiated the investigation. For the reason identified by the petitioner and because there are no compelling reasons to deny the request, the Department is postponing the deadline for the preliminary determination under section 733(c)(1)(A) of the Act by 50 days to May 21, 2008. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless extended.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: March 12, 2008.

David M. Spooner,

Assistant Secretary for Import
Administration.

SUPPLEMENTARY INFORMATION:

I. Abstract

Mokupapapa Discovery Center
(Center) is an outreach arm of
Papahānaumokuākea Marine National
Monument that reaches 60,000 people
each year in Hilo, Hawaii. The Center
was created four years ago to help raise
support for the creation of a National
Marine Sanctuary in the Northwestern
Hawaiian Islands. Since that time, the
area has been proclaimed a Marine
National Monument and the main
messages we are trying to share with the
public have changed to better reflect the
new monument status and the joint
management by the three co-trustees of
the Monument. We therefore are seeking
to find out if people visiting our Center
are getting our new messages by
conducting an optional exit survey.

II. Method of Collection

Surveys will be conducted by in-
person interview as people exit the
Center. Interviewers will record
responses on paper, and later transfer
them to an electronic database.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or
households.

Estimated Number of Respondents:
250.

Estimated Time Per Response: 7
minutes.

Estimated Total Annual Burden
Hours: 29.

Estimated Total Annual Cost to
Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether
the proposed collection of information
is necessary for the proper performance
of the functions of the agency, including
whether the information shall have
practical utility; (b) the accuracy of the
agency's estimate of the burden
(including hours and cost) of the
proposed collection of information; (c)
ways to enhance the quality, utility, and
clarity of the information to be
collected; and (d) ways to minimize the
burden of the collection of information
on respondents, including through the
use of automated collection techniques
or other forms of information
technology.

Comments submitted in response to
this notice will be summarized and/or
included in the request for OMB
approval of this information collection;
they also will become a matter of public
record.

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries
Service (NMFS); National Oceanic and
Atmospheric Administration (NOAA);
Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional
Administrator for Sustainable Fisheries,
Northeast Region, NMFS (Assistant
Regional Administrator) has made a
preliminary determination that the
subject Exempted Fishing Permit (EFP)
application from the University of New
England (UNE) and the University of
New Hampshire (UNH) that would
allow Northeast multispecies vessels to
possess spiny dogfish for a spiny
dogfish life history study contains all
the required information and warrants
further consideration. The Assistant
Regional Administrator has also made a
preliminary determination that the
activities authorized under the EFP
would be consistent with the goals and
objectives of the Spiny Dogfish Fishery
Management Plan (FMP). However,
further review and consultation may be
necessary before a final determination is
made.

DATES: Comments on this document
must be received on or before April 2,
2008.

ADDRESSES: Comments may be
submitted by e-mail to
dogfish.efp@noaa.gov. Include in the
subject line of the e-mail comment the
following document identifier:
"Comments on UNE dogfish possession
EFP proposal." Written comments
should be sent to Patricia A. Kurkul,
Regional Administrator, NMFS,
Northeast Regional Office, 1 Blackburn
Drive, Gloucester, MA 01930. Mark the
outside of the envelope, "Comments on
UNE dogfish possession EFP proposal."
Comments may also be sent via

SUPPLEMENTARY INFORMATION: The FMP
implemented a semi-annual quota.
When a semi-annual quota is projected
to be harvested, NMFS closes the fishery
until the next semi-annual quota opens.
During a dogfish closure, no vessel may
fish for or possess dogfish. A dogfish
closure is currently in effect through
April 30, 2008.

As part of a continuing research
project, UNE, in collaboration with the
UNH, is investigating Gulf of Maine
dogfish age and growth, and size at
sexual maturity characteristics. The
applicant states that current dogfish life
history data need updating, particularly
in light of recent stock declines and
potential regional variability in life
history traits. The project investigators
are attempting to develop a more
accurate aging tool, which would
