Needs and Uses: The Board is, by statute, responsible for the economic regulation of common carrier rail transportation in the United States and collects rail-carload waybills for this purpose. The Board has authority to collect these waybills under 49 U.S.C. 11144, 11145, and the Board often uses the information in rail-carload waybills to carry out its responsibilities.

A rail-carload waybill is a “document or instrument prepared from the bill of lading contract or shipper’s instructions as to the disposition of the freight, and [is] used by the railroad(s) involved as the authority to move the shipment and as the basis for determining the freight charges and interline settlements.” 49 CFR 1244.1(c). From these carload waybills, the Board creates an aggregate compilation of the sampled waybills of all reporting carriers, referred to as the Waybill Sample. The Waybill Sample is the Board’s principal source of data about freight rail shipments. The information in the Waybill Sample is used by the Board, other federal and state agencies, and industry stakeholders to monitor traffic flows and rate trends in the industry, and to develop testimony in Board proceedings. The Board’s collection and use of this data enables it to meet its statutory duty to regulate the rail industry.

Under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Section 3507(b) of the PRA requires, concurrent with an agency’s submitting a collection to OMB for approval, a 30-day notice and comment period through publication in

the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Information from certain schedules contained in these reports is available at the Board’s website at www.stb.gov by navigating to “Reports & Data” and clicking on “Economic Data.” Information in these reports is not available from any other source.

DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov. II. Background

On October 31, 2023, FMCSA published a notice announcing its decision to renew exemptions for 13 individuals from the hearing standard in 49 CFR 391.41(b)(11) to operate a CMV in interstate commerce and requested comments from the public (88 FR 74560). The public comment period ended on November 30, 2023, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with § 391.41(b)(11).

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5—1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid (35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 8, 1971), respectively).

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Conclusion

Based upon its evaluation of the 13 renewal exemption applications, FMCSA announces its decision to exempt the following drivers from the hearing requirement in § 391.41(b)(11).

As of November 19, 2023, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following 13 individuals have satisfied the renewal conditions for obtaining an exemption from the hearing requirement in the FMCSRs for interstate CMV drivers (88 FR 74561):

Jeffrey Barbuto (NH)
Wayne Crowl (IN)
Debbie Gaskill (GA)
Jason Gensler (OH)
Emil Iontchev (IL)
Jerrell McCrary (NC)
Danny McGowan (WV)
Matthew Moore (TX)
Abdiwahab Olow (MN)
Stuart Randles (FL)

Anthony Saive (TN)
Jennifer Valentine (TX)
Donald Weyand (MI)

The drivers were included in docket numbers FMCSA–2014–0383, FMCSA–2014–0385, FMCSA–2014–0387, FMCSA–2018–0139, FMCSA–2019–0109, FMCSA–2019–0110, or FMCSA–2021–0015. Their exemptions were applicable as of November 19, 2023 and will expire on November 19, 2025.

In accordance with 49 U.S.C. 31315(b), each exemption will be valid for 2 years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) the person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136, 49 U.S.C. chapter 313, or the FMCSRs.
