Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on September 16, 2022, at Vol. 87 FR 56936. This comment period ended November 15, 2022. No public comments were received from this Notice.

Title of Collection: NCCC Impact Studies.

OMB Control Number: 3045-0189.

Type of Review: Renewal.

Respondents/Affected Public: Individuals.

Total Estimated Number of Annual Responses: 300.

Total Estimated Number of Annual Burden Hours: 190.

Abstract: The purpose of the information collection is to finalize collecting data for the previously-approved AmeriCorps National Civilian Community Corps (NCCC) impact studies. The studies assess the performance and impact of NCCC programs on members and communities served by the program. In particular, the studies investigate three main components of NCCC:

1. The impact of NCCC on developing leaders.
2. The impact of NCCC on strengthening communities.
3. Retention at the different phases of the program, from application to completion. AmeriCorps seeks to renew the current information collection. The revisions are intended to finalize collecting data for the previously approved AmeriCorps National Civilian Community Corps (NCCC) impact studies. The information collection will otherwise be used in the same manner as the existing application. AmeriCorps also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on 12/31/2022.

Submission for OMB Review; Comment Request

AGENCY: Department of the Army, Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUPPLEMENTARY INFORMATION:

Title: Associated Form; and *OMB Number:* Application for Army Radiation Permit; OMB Control Number 0702–0109.

Type of Request: Revision.

Number of Respondents: 235.

Responses per Respondent: 1.

Annual Responses: 235.

Average Burden per Response: 2 hours.

Annual Burden Hours: 470.

Needs and Uses: In accordance with 32 CFR 655.10, Army Radiation Permits (ARPs) are required for use, storage, or possession of ionizing radiation sources by non-Army entities on an Army installation. For the purpose of this information collection request and the authorizing regulation, "ionizing radiation source" means any source that, if held or owned by an Army organization, would require a specific Nuclear Regulatory Commission license or Army Radiation Authorization. Such use, storage, or possession of ionizing radiation sources must be in connection with an activity of the Department of Defense or in connection with a service to be performed on the installation for the benefit of the Department of Defense, in accordance with 10 U.S.C. 2692(b)(1). The information required to grant an ARP is necessary to protect the public, civilian employees, and military personnel on an installation from potential exposure to radioactive sources. The ARP allows the installation to maintain cognizance over the presence of radioactive sources on the installation. Cognizance is necessary to ensure emergency responders are properly notified and prepared to deal with the radioactive materials when necessary, ensure other proper protective controls are maintained, and

to ensure proper removal of the radioactive materials from the installation when no longer required. Approval by the garrison commander is required to obtain an Army radiation permit. Additional implementing procedures are outlined in Department of the Army Pamphlet 385–24, "Army Radiation Safety Program."
