*Abstract:* The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, disposition, and prices. The Agricultural Labor Survey provides statistics on the number of agricultural workers, hours worked, and wage rates. Number of workers and hours worked are used to estimate agricultural productivity; wage rates are used in the administration of the "H-2A" Program and for setting Adverse Effect Wage Rates. Survey data are also used to carry out provisions of the Agricultural Adjustment Act. The current expiration date for this docket is April 30, 2009. NASS intends to request that the Agricultural Labor Survey be approved for another 3 years.

*Authority:* These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. *Estimate of Burden:* This information collection comprises four individual surveys, two of which are conducted annually and two which are conducted quarterly, for an estimated total of 72,000 responses. The public reporting burden for this information collection is estimated to average 15 minutes per response.

*Respondents:* Farms and businesses.

*Estimated Number of Respondents:* 12,300.

*Estimated Total Annual Burden on Respondents:* 12,500 hours.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690-2388.
