C. Federal Subaward Reporting System (FSRS)

This award may be subject to the Transparency Act subaward and executive compensation reporting requirements of 2 CFR part 170.

The Transparency Act requires the OMB to establish a single searchable database, accessible to the public, with information on financial assistance awards made by Federal agencies. The Transparency Act also includes a requirement for recipients of Federal grants to report information about first-tier subawards and executive compensation under Federal assistance awards.

IHS has implemented a Term of Award into all IHS Standard Terms and Conditions, NOAs, and funding announcements regarding the FSRS reporting requirement. The IHS Term of Award is applicable to all IHS grants and cooperative agreements issued on or after October 1, 2010, with a \$25,000 subaward obligation dollar threshold for any specific reporting period. Additionally, all new discretionary IHS awards where the project period is made up of more than one budget period, the project period state date was October 1, 2010 or after, and the primary awardee will have a \$25,000 subaward obligation dollar threshold during any specific reporting period will be required to address the FSRS reporting requirement. For the full IHS award term implementing this requirement and additional award applicability information, visit the DGM Grants Policy Web site at https://www.ihs.gov/dgm/index.cfm?module=dsp_dgm_policy_topics.

The Public Health Service strongly encourages all cooperative agreement and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of the facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the HHS mission to protect and advance the physical and mental health of the American people.
