GENERAL SERVICES ADMINISTRATION

Multiple Award Schedule Advisory Panel; Notification of Public Advisory Panel Meetings

AGENCY: U.S. General Services Administration (GSA).

ACTION: Notice.

SUMMARY: The U.S. General Services Administration (GSA) Multiple Award Schedule Advisory Panel (MAS Panel), a Federal Advisory Committee, will hold a public meeting on Friday, May 1, 2009. GSA utilizes the MAS program to establish long-term Governmentwide contracts with responsible firms to provide Federal, State, and local government customers with access to a wide variety of commercial supplies (products) and services.

The MAS Panel was established to develop advice and recommendations on MAS program pricing policies, provisions, and procedures in the context of current commercial pricing practices. The Panel is developing recommendations for MAS program pricing provisions for the acquisition of (1) professional services; (2) products; (3) total solutions which consist of professional services and products; and (4) non professional services. In developing the recommendations, the Panel will, at a minimum, address these 5 questions for each of the 4 types of acquisitions envisioned above: (1) Where does competition take place?; (2) If competition takes place primarily at the task/delivery order level, does a fair and reasonable price determination at the MAS contract level really matter?; (3) If the Panel consensus is that competition is at the task order level, are the methods that GSA uses to determine fair and reasonable prices and maintain the price/discount relationship with the basis of award customer(s) adequate?; (4) If the current policy is not adequate, what are the recommendations to improve the policy/guidance; and (5) If fair and reasonable price determination at the MAS contract level is not beneficial and the fair and reasonable price determination is to be determined only at the task/delivery order level, then what is the GSA role?

The meeting will be held at U.S. General Services Administration, Federal Acquisition Service, 2200 Crystal Drive, Room L1301, Arlington, VA 22202. The location is within walking distance of the Crystal City metro stop. The start time for each meeting is 9 a.m., and each meeting will adjourn no later than 5 p.m.

SUPPLEMENTARY INFORMATION:

I. Background

Ensuring the optimal safety of vaccines and immunizations is important to everyone. The National Vaccine Program Office (NVPO) is located within the Office of Public Health and Science, Office of the Secretary, Department of Health and Human Services (HHS), and has responsibility for coordinating and ensuring collaboration among the many Federal agencies involved in vaccine and immunization activities. NVPO also has responsibility for managing and providing support services for the National Vaccine Advisory Committee (NVAC). NVAC is a statutory Federal advisory committee that was established to provide advice and make recommendations to the Director of the National Vaccine Program on matters related to the Program's responsibilities. The Assistant Secretary for Health serves as Director of the National Vaccine Program.

The Centers for Disease Control and Prevention's (CDC) Immunization Safety Office (ISO) has significant responsibility for monitoring and studying the safety of vaccines after they are licensed and used in the United States (*http://www.cdc.gov/vaccinesafety*). ISO has drafted a five-year scientific agenda that identifies vaccine safety issues to consider for scientific study, in addition to any new questions that may arise. The draft ISO Scientific Agenda can be found at: *http://www.cdc.gov/vaccinesafety/00_pdf/draft_agenda_recommendations_080404.pdf* and the addendum at *http://www.cdc.gov/vaccinesafety/00_pdf/draft_recommendations_add_080410.pdf.*

Since not all questions and issues can be addressed at once, setting priorities is also important, and ISO has requested a review of the draft Scientific Agenda by the National Vaccine Advisory Committee (NVAC) for the purpose of identifying gaps and setting priorities. The NVAC Vaccine Safety Working Group has written a draft report of recommendations on the content and priorities of the draft ISO Scientific Agenda. The draft report may be found at *http://www.hhs.gov/nvpo/nvac/reports.html*.

Through this request for information (RFI) HHS is seeking comments from everyone, including stakeholders and the broad public, on the NVAC Vaccine Safety Working Group draft report. Comments received will be available for public viewing on the NVAC Vaccine Safety Working Group Web site (*http://www.hhs.gov/nvpo/nvac/vaccinesafety.html*).

II. Information Request

NVPO, on behalf of the NVAC Vaccine Safety Working Group, requests input on the draft Working Group report (*http://www.hhs.gov/nvpo/nvac/reports.html*). In addition to general comments, NVPO is seeking input on any additional gaps not addressed in the ISO Scientific Agenda nor the NVAC Vaccine Safety Working Group draft report, and/or prioritization criteria and its application to the ISO Scientific Agenda.

Please limit comments to 6 pages.

III. Potential Responders

HHS invites input from a broad range of individuals and organizations that have interests in vaccines and vaccine safety. Some examples of these organizations include but are not limited to the following:

—General public;
—Advocacy groups and public interest organizations;
—State and local governments;
—State and local public health departments;
—Vaccine manufacturing industry, distributors and other businesses;
—Health care professional societies and organizations.

When responding, please self-identify with any of the above or other categories (include all that apply) and your name. All comments submitted will be made publicly available. Anonymous submissions will not have their comments posted and will not be considered.

The submission of written materials in response to the RFI should not exceed six pages, not including appendices and supplemental documents. Responders may submit other forms of electronic materials to demonstrate or exhibit concepts of their written responses. Any information you submit will be made public. Consequently, do not send proprietary, commercial, financial, business confidential, trade secret, or personal information that you do not wish to be made public.

Public Access: Responses to this RFI will be available to the public on the NVAC Web site at *http://www.hhs.gov/nvpo/nvac/vaccinesafety.html.* You may access public comments received from this RFI by going to the above Web site.
