National Agricultural Statistics Service

Title: Quick Response for Cooperator-Surveys Generic Clearance.

OMB Control Number: 0535-0264.

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue official State and national estimates of crop and livestock production, disposition and prices, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. In addition to the many statistical activities directly related to its mission, the National Agricultural Statistics Service (NASS) will lend technical expertise to other Federal agencies, State governments, land grant universities, and other organizations which have a Memorandum of Understanding with NASS. These entities will be referred to as cooperators. NASS provides support and assistance in the areas of questionnaire & sample design as well as analysis of survey results. NASS would like to include data collection to its list of services, utilizing the existing Cooperative Agreement with the National State Departments of Agriculture (NASDA). The data collection activities in this generic clearance request would be conducted through cooperative agreements with Federal agencies, State departments of agriculture, land-grant universities, or other organizations with which NASS has a Memorandum of Understanding (MOU). The surveys will be conducted under a full-cost recovery basis. These cooperators have sought out NASS's assistance to provide statistics beneficial to agriculture, but are not covered by NASS's annual Congressional appropriation. General authority for conducting cooperative projects is granted under U.S. Code Title 7, Section 450a which states that USDA officials may, "enter into agreements with and

receive funds . . . for the purpose of conducting cooperative research projects. . . ." This authority has been delegated to NASS. Response to all surveys collected under this generic clearance is voluntary.

NASS benefits from these cooperative agreements by: (1) Obtaining additional data to update its list of farm operators; (2) encouraging both parties to coordinate Federal survey activities and activities funded under a cooperative agreement to reduce the need for overlapping data collection and/or spread out respondent burden; and (3) facilitating additional promotion of NASS surveys and statistical reports funded by annual Congressional appropriations. Respondents benefit from these cooperative agreements by: (1) Having their reported data protected by Federal Law (U.S. Code Title 18, Section 1905; U.S. Code Title 7, Section 2276; and Title III of Pub. L. 115-435 codified in 44 U.S.C. Ch. 35 and other applicable Federal laws, (CIPSEA)); (2) having data collection activities for Federal and Cooperative surveys coordinated to minimize respondent burden; and (3) having high-quality agricultural data that are important to a state or region be collected and published.

Need and Use of the Information: NASS would like to conduct up to 10 surveys each year in response to requests from cooperators who have data needs that cannot be met through NASS's annual Congressional appropriations.

NASS would like to include surveys that would cover topics such as:

- Farm management practices,
- Food safety,
- Workplace safety,
- Conservation and land use practices,
- Chemical use management practices,
- Crop quality,
- Agri-tourism, local foods, or other specific agricultural promotion programs.

The summarized and published information will be analyzed by the sponsoring cooperators and stakeholders in agriculture. Results will be used to study

- production agriculture as well as
- various programs and policies to determine their impact on agricultural producers and consumers.

Description of Respondents: Private Sector; Businesses or other for-profits; Farms.

Number of Respondents: 225,000.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 111,512.

Title: Meat and Poultry Processing Expansion Program.

OMB Control Number: 0570-0079.

Type of Request: Extension of a currently approved information collection.

Abstract: The Rural Business-Cooperative Service administers the Meat and Poultry Processing Expansion Program. The purpose of the program is to provide more and better options to producers and consumers as well as offer assistance to maintain and improve the food and agricultural supply chain resiliency. This information collection will be used to obtain information necessary to evaluate grant applications to determine the eligibility of the applicant and the project for the program and to qualitatively assess the project's technical and financial merit to determine which projects should be funded.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2.3 hours per response.

Respondents: Respondents for this data federally recognized tribes, tribal entities, for-profit entities, corporations, non-profit entities, producer-owned cooperatives and corporations, certified benefit corporations and state or local government entities.

Estimated Number of Respondents: 50.

Estimated Number of Responses per Respondent: 18.4.

Estimated Number of Responses: 922.

Estimated Total Annual Burden on Respondents: 2,116 hours.

Copies of this information collection can be obtained from Pamela Bennett, Rural Development Innovation Center, Regulations Management Division, at (202) 720-9639. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Karama Neal,

Administrator, Rural Business-Cooperative Service.
