p. The Commission’s scoping process will help determine the required level of analysis and satisfy the NEPA scoping requirements, irrespective of whether the Commission prepares an environmental assessment or Environmental Impact Statement.

Scoping Process

Due to ongoing concerns with large gatherings related to COVID-19, we do not intend to hold in-person public scoping meetings or an in-person environmental site review. Rather, Commission staff will hold two public scoping meetings using a telephone conference line. The daytime scoping meeting will focus on resource agency, Indian tribes, and non-governmental organization (NGO) concerns, while the evening scoping meeting will focus on receiving input from the public. We invite all interested agencies, Native American tribes, NGOs, and individuals to attend one of these meetings to assist us in identifying the scope of environmental issues that should be analyzed in the NEPA document. Additionally, a virtual site tour of the proposed project should be posted on Western Minnesota Power’s licensing website prior to the scoping meetings. Visuals included in the virtual site tour will be referenced during Western Minnesota Power’s presentation of the project during the scoping meetings. The dates and times of the meetings as well as how to access the virtual site tour are listed below.
