

Notices

Federal Register

Vol. 86, No. 35

Wednesday, February 24, 2021

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

February 19, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by March 26, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: Special Nutrition Programs Quick Response Surveys (SNP QRS).

OMB Control Number: 0584–0613.

Summary of Collection: This generic clearance, which allows the Food and Nutrition Service (FNS) to quickly collect and analyze specific information from State and local administrators of the Special Nutrition Programs (SNP), includes two data collections: (1) An annual sample frame data collection and (2) quick response surveys. FNS conducts lengthy, large, and complex studies on broad topics about the SNPs, which often take several years to complete. The Quick Response Surveys provides a mechanism for succinct, quick-turnaround studies to complement the larger SNP studies. Collecting sample frame data on an annual basis provides FNS the flexibility to conduct these shorter, quick-turnaround studies. This generic clearance enables FNS to administer the SNPs more effectively by providing a mechanism for rapidly collecting current information on specific time-sensitive features or issues.

Need and Use of the Information:

This collection is necessary to collect and analyze specific information from State and local administrators of the SNPs in a timely manner. FNS will collect data from State, Local, and Tribal governments and from business (both profit and non-profit organizations) through these studies. FNS will use the data collected for the sample frames to identify the universe of entities that can be sampled for the quick-response surveys. These surveys will collect information from key administrators of the SNPs at the State, local, and site level in response to various program and research questions resulting from the larger and more complex SNP studies. The data collected from these quick turnaround studies will be used to answer policy and implementation questions posed by the larger studies and will enable FNS to monitor program funding, comply with statutes and regulations, and adopt program changes.

Description of Respondents: State, Local, or Tribal Government and businesses (for-profit and not-for-profit institutions).

Number of Respondents: 108,597 over the three-year approval.

Frequency of Responses: Reporting: On Occasion; Annually.

Total Burden Hours: 31,335 over the three-year approval.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

February 19, 2021.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments regarding these information collections are best assured of having their full effect if received by March 26, 2021. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to

the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Marketing Service

Title: Regulations and Related Reporting and Recording Requirements—FTPP, Packers and Stockyards Division.

OMB Control Number: 0580–0015.

Summary of Collection: The Agricultural Marketing Service (AMS) administers the provisions of the Packers and Stockyards Act of 1921 (Act), as amended and supplemented (7 U.S.C. 181–229c). The Act is designed to protect the financial interests of livestock and poultry producers engaged in commerce of livestock and live poultry sold for slaughter. It also protects members of the livestock and poultry marketing, processing, and merchandising industries from unfair, unjustly discriminatory, deceptive, or anti-competitive practices in the livestock, meat, and poultry industries. AMS will collect information using several forms.

Need and Use of the Information: AMS requires regulated entities in the livestock, meat packing, and poultry industries to keep records, submit information to AMS, and provide information to third parties. AMS will collect information to monitor and examine financial, competitive and trade practices in the livestock, meatpacking, and poultry industries. Also, the information will help assure that the regulated entities do not engage in unfair, unjustly discriminatory, or deceptive trade practices or anti-competitive behavior.

Description of Respondents: Business or other for-profit.

Number of Respondents: 15,371.

Frequency of Responses: Recordkeeping; Third party disclosure; Reporting: On occasion; Semi-annually; Annually.

Total Burden Hours: 26,137.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Animal and Plant Health Inspection Service

[Docket No. APHIS–2020–0071]

Classify Canada as Level I for Bovine Tuberculosis and Brucellosis

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we are proposing to classify Canada as Level I for both bovine tuberculosis and brucellosis. This proposed recognition is based on evaluations we have prepared in connection with this action, which we are making available for review and comment.

DATES: We will consider all comments that we receive on or before April 26, 2021.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov. Enter APHIS–2020–0071 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.
- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2020–0071, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road, Unit 118, Riverdale, MD 20737–1238.

Supporting documents and any comments we receive on this docket may be viewed at regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Dr. Kelly Rhodes, Senior Staff Veterinarian, Regionalization Evaluation Services, Strategy and Policy, VS, APHIS, USDA, 4700 River Road Unit 38, Riverdale, MD 20737–1231; AskRegionalization@usda.gov; (301) 851–3315.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 93, subpart D (§§ 93.400 through 93.442, referred to below as part 93 or the subpart), contain requirements for the importation of ruminants into the United States to address the risk of introducing or disseminating diseases of livestock within the United States. Part 93 currently contains provisions that address the risk that imported bovines

(cattle or bison) may introduce or disseminate bovine tuberculosis or brucellosis within the United States. Within part 93, § 93.437 contains the requirements for classification of foreign regions for bovine tuberculosis and § 93.438 contains the process for requesting regional classification for bovine tuberculosis. In accordance with § 93.437(f), the Animal and Plant Health Inspection Service (APHIS) maintains lists of all Level I, Level II, Level III, Level IV, and Level V regions for bovine tuberculosis and adds foreign regions classified in accordance with § 93.438 to these lists.

Section 93.440 contains the requirements for classification of foreign regions for brucellosis and § 93.441 contains the process for requesting regional classification for brucellosis. In accordance with § 93.440(d), APHIS maintains lists of all Level I, Level II, and Level III regions for brucellosis and adds regions classified in accordance with § 93.441 to these lists.

Paragraph (a) of § 93.438 provides that a representative of a national government with authority to make such a request may request that APHIS classify a region for bovine tuberculosis; paragraph (a) of § 93.441 has a similar provision with respect to requests for brucellosis classification. Within those same sections, paragraph (b) provides that if, after reviewing and evaluating the request for bovine tuberculosis or brucellosis classification, respectively, APHIS believes the region can be accurately classified, APHIS will publish a notice in the **Federal Register** with the proposed classification and make its evaluation available for public comment. Following the close of the comment period, APHIS will review all comments received and will make a final determination regarding the request that will be detailed in another document published in the **Federal Register**.

The Government of Canada has requested that APHIS evaluate and classify Canada for bovine tuberculosis and brucellosis. In response to Canada's request, we have prepared two evaluations, titled “APHIS Evaluation of Canada for Bovine Tuberculosis (*Mycobacterium bovis*) Classification” (April 2020) and “APHIS Evaluation of Canada for Bovine Brucellosis (*Brucella abortus*) Classification” (May 2020). The evaluations conclude that Canada meets the conditions to be classified as Level I for both bovine tuberculosis and brucellosis, which supports adding Canada to the web-based list of Level I regions for bovine tuberculosis and the web-based list of Level I regions for brucellosis.
