

weigh, measure, radio-tag, band, and release) Indiana bats (*Myotis sodalis*), gray bats (*Myotis grisescens*), and northern long-eared bats (*Myotis septentrionalis*) in the Shoal Creek Ranger District of the Talladega National Forest in Cleburne and Calhoun Counties, Alabama, to determine presence/absence and examine the impacts of fire management and forest thinning on the species.

Permit Application Number: TE 56749B-0

Applicant: Patrick Moore, Little Rock, Arkansas

The applicant requests authorization to take (enter hibernacula, salvage dead bats, capture with mist nets or harp traps, handle, identify, collect hair samples, band, radio-tag, light-tag, wing-punch, and selectively euthanize for white-nose syndrome) Indiana bats (*Myotis sodalis*), gray bats (*Myotis grisescens*), Ozark big-eared bats (*Corynorhinus townsendii ingens*), and northern long-eared bats (*Myotis septentrionalis*) for the purposes of conducting presence/absence surveys, studies to document habitat use, and population monitoring throughout the following States: Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

Permit Application Number: TE 822525-6

Applicant: Joe McGlincy, Southern Forestry Consultants, Bainbridge, Georgia

The applicant requests renewal of his current permit to take (capture, monitor, band, release, install artificial cavities for, and translocate) red-cockaded woodpeckers (*Picoides borealis*) throughout the species' range for the enhancement of propagation and survival of the species.

Permit Application Number: TE 22311A-1

Applicant: Anna George, Tennessee Aquarium, Chattanooga, Tennessee

The applicant requests renewal of her current permit to take (capture, identify, take fin clips from, and release) up to 30 individuals of each of the fish species amber darter (*Percina antesella*), goldline darter (*Percina aurolineata*), snail darter (*Percina tanasi*), Conasauga logperch (*Percina jenkinsi*), blue shiner (*Cyprinella caerulea*), and Laurel dace (*Chrosomus saylori*), in Alabama,

Georgia, Kentucky, North Carolina, Tennessee, and Virginia, for the purposes of conducting presence/absence surveys and genetic analyses.

Permit Application Number: TE 38522A-1

Applicant: Michael Lacki, University of Kentucky, Georgetown, Kentucky

The applicant requests renewal and amendment of his current permit to take (enter hibernacula or maternity roost caves of, salvage dead bats, capture with mist nets or harp traps, handle, identify, collect hair samples, band, radio-tag, light-tag, wing-punch, and selectively euthanize for white-nose syndrome) Indiana bats (*Myotis sodalis*), gray bats (*Myotis grisescens*), and northern long-eared bats (*Myotis septentrionalis*) for the purposes of conducting presence/absence surveys, studies to document habitat use, and population monitoring in Kentucky.

Permit Application Number: TE 207117-1

Applicant: Samuel Gaines, The South Carolina Department of Parks, Recreation & Tourism, Columbia, South Carolina

The applicant requests renewal of his current permit to take (inspect nest cavities of) red-cockaded woodpeckers (*Picoides borealis*) for the purpose of monitoring populations in Cheraw State Park and Hampton Plantation State Historic Site in Chesterfield and Charleston Counties, South Carolina.

Permit Application Number: TE 075913-5

Applicant: Thomas Risch, Arkansas State University, Jonesboro, Arkansas

The applicant requests an amendment of his current permit to add take (salvage of dead bats, capture with mist nets or harp traps, handling, identification, collection of hair samples, banding, radio-tagging, light-tagging wing-punching, and selectively euthanizing for white-nose syndrome) of northern long-eared bats (*Myotis septentrionalis*) and to add the following States for purposes of conducting presence/absence surveys, studies to document habitat use, and population monitoring: Alabama, Florida, Georgia, Illinois, Iowa, Kentucky, Louisiana, Mississippi, Missouri, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

Permit Application Number: TE 58576B-0

Applicant: Randall Davis, Texas A&M University, Galveston, Texas

The applicant requests authorization to take (capture, attach video and data recorder to, release, and recapture) 15 to 20 adult female leatherback sea turtles (*Dermochelys coriacea*) for the purpose of revealing new information on foraging ecology in Sandy Point National Wildlife Refuge, Frederiksted, St. Croix, US Virgin Islands.

Permit Application Number: TE 35313B-2

Applicant: Emma Willcox, University of Tennessee, Knoxville, Tennessee

The applicant requests an amendment to include additional States on her current permit to take (capture, handle, band, radio-tag, pit tag, collect hair and fecal samples of, wing punch, swab, undertake longwave ultraviolet fluorescence screening, and release) Indiana bats (*Myotis sodalis*), gray bats (*Myotis grisescens*) and northern long-eared bats (*Myotis septentrionalis*) for the purposes of conducting presence/absence surveys, studies to document habitat use, population monitoring, and white-nose syndrome surveillance. The applicant requests the addition of the following States: Alabama, Arkansas, Georgia, Illinois, Indiana, Kansas, Louisiana, Mississippi, Missouri, Oklahoma, South Carolina, Virginia, and West Virginia.

Dated: March 9, 2015.

Leopoldo Miranda,

Assistant Regional Director- Ecological Services, Southeast Region.

Notice of Inventory Completion: U.S. Department of Agriculture, Forest Service, Kaibab National Forest, Williams, AZ

AGENCY: National Park Service, Interior.
ACTION: Notice.

SUMMARY: The U.S. Department of Agriculture (USDA), Forest Service, Kaibab National Forest has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian tribes or Native Hawaiian

organizations, and has determined that there is a cultural affiliation between the human remains and associated funerary objects and present-day Indian tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the Kaibab National Forest. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the Kaibab National Forest at the address in this notice by April 15, 2015.

ADDRESSES: Michael R. Williams, Forest Supervisor, Kaibab National Forest, 800 S 6th St, Williams, AZ 86046, telephone (928) 635-8200, email mrwilliams01@fs.fed.us.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the USDA Forest Service, Kaibab National Forest. The human remains and associated funerary objects were removed from the North Kaibab Ranger District, Coconino County, AZ.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Kaibab National Forest professional staff in consultation with representatives of the Hopi Tribe of Arizona; Kaibab Band of Paiute Indians of the Kaibab Indian Reservation, Arizona; Navajo Nation, Arizona New Mexico & Utah; San Juan Southern Paiute Tribe of Arizona; and

Zuni Tribe of the Zuni Reservation, New Mexico.

History and Description of the Remains

On August 24, 1985, human remains representing, at minimum, one individual were removed from the North Kaibab Ranger District in Coconino County, AZ. On August 23, 1985, the Coconino County Sheriff's Office was contacted in regards to human skeletal remains that were discovered by a hunter on the North Kaibab Ranger District. On August 24, 1985, the Coconino County Sheriff's Office conducted an investigation in the area and collected the human remains. On August 26, 1985, an anthropologist examined the remains and concluded that the skeleton was that of a female around 50-55 years of age at death and approximately 5'0" to 5'2" in stature. The examiner further concluded that the remains are possibly from a Hispanic individual, but are more likely from a Native American person. The examination surmised that the individual may have died of exposure in the 1930s or earlier based on the condition of the remains. On November 14, 1985, the Coconino County Sheriff's Office closed the case and turned the remains over to Northern Arizona University. Later, the remains were moved to the Coconino County Coroner's Office in Flagstaff, AZ. In 2012, the Coconino County Coroner's Office notified the Kaibab National Forest of the remains. The five associated funerary objects are two metal belt buckles, two steel rings, and one lot of fragments of a leather horse halter with brass rivets.

Sheriff's Office detectives and the medical examiner dated the remains to the 1930s or earlier. Interviews conducted during the investigation indicated the remains may be affiliated with the Paiute people. The area where the remains were located is within the traditional use area of the Kaibab Band of Paiute Indians of the Kaibab Indian Reservation, Arizona.

Determinations Made by the USDA Forest Service, Kaibab National Forest

Officials of the USDA Forest Service, Kaibab National Forest have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the five objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Kaibab Band of Paiute Indians of the Kaibab Indian Reservation, Arizona.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Michael R Williams, Forest Supervisor, Kaibab National Forest, 800 S 6th St, Williams, AZ 86046, telephone (928) 635-8200, email mrwilliams01@fs.fed.us by April 15, 2015. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Kaibab Band of Paiute Indians of the Kaibab Indian Reservation, Arizona, may proceed.

The Kaibab National Forest is responsible for notifying the Hopi Tribe of Arizona; Kaibab Band of Paiute Indians of the Kaibab Indian Reservation, Arizona; Navajo Nation, Arizona, New Mexico & Utah; San Juan Southern Paiute Tribe of Arizona; and Zuni Tribe of the Zuni Reservation, New Mexico, that this notice has been published.

Dated: February 3, 2015.

Melanie O'Brien,

Acting Manager, National NAGPRA Program.
