

Both the LS-513 and another form in this package, the LS-274 (Report of Injury Experience), have an increase in burden due to the program not being able to collect the information via proposed weblink as originally forecasted. The additional increases are 122.5 hours for the LS-513 and 518 hours for the LS-274. The package is being re-submitted for this reason as well.

II. Review Focus: The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

- * enhance the quality, utility and clarity of the information to be collected; and

- * minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
