

The 2016 Multifamily Accelerated Processing (MAP) Guide established a base amount of \$15,000 per unit to define substantial rehabilitation for FHA insured loan programs. Section 5.1.2.A.2.b of the 2020 MAP guide requires that this base amount be annually adjusted for inflation based on the percentage change published by the Bureau of Labor Statistics of the Department of Labor or other inflation cost index. Applying the HOEPA adjustment to the base amount, the 2022 base amount per dwelling unit to determine substantial rehabilitation for FHA insured loan programs is \$16,983.

This per unit cost threshold for substantial rehabilitation may be applied to FHA multifamily mortgage insurance applications submitted or amended on or after January 1, 2022, so long as the loan has not been initially endorsed.

Environmental Impact

This notice involves the statutorily required establishment of mortgage limits and discretionary establishment of cost limits which do not constitute development decisions affecting the physical condition of specific project areas or building sites. Accordingly, under 24 CFR 50.19(c)(6), this notice is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).

Lopa P. Kolluri,

Principal Deputy Assistant Secretary for the Office of Housing—Federal Housing Administration.

Hunting and Wildlife Conservation Council; Call for Nominations; Extension

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Call for nominations; extension.

SUMMARY: The Secretary of the Interior and the Director of the U.S. Fish and Wildlife Service seek nominations for membership on the Hunting and Wildlife Conservation Council (Council). This is a 15-day extension of the call for nominations published in the **Federal Register** on February 18, 2022.

DATES: The nomination period announced on February 18, 2022, at 87 FR 9374 is extended. Nominations via

email must be date stamped no later than April 1, 2022.

ADDRESSES: Please address nomination letters to Mr. Douglas Hobbs, U.S. Fish and Wildlife Service. You may email nominations to Douglas Hobbs, at doug_hobbs@fws.gov.

FOR FURTHER INFORMATION CONTACT: Douglas Hobbs, at the email address in **ADDRESSES**, or by telephone at (703) 358-2336. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The Secretary of the Interior and the Director of the U.S. Fish and Wildlife Service seek nominations for membership on the Hunting and Wildlife Conservation Council (Council). The Council reports to the Secretary of the Interior and the Secretary of Agriculture to provide recommendations regarding the establishment and implementation of conservation endeavors that benefit wildlife resources; encourage partnership among the public, sporting conservation organizations, and Federal, State, Tribal, and territorial governments; and benefit fair chase recreational hunting and safe recreational shooting sports. On February 18, 2022, the original call for nominations published in the **Federal Register** (87 FR 9374), with a 30-day nomination period ending March 21, 2022. This notice provides additional time for nominations (see **DATES**, above). For more information on the Council's duties, member terms, vacancies to fill, the nomination method, and eligibility, see the February 18, 2022, notice (87 FR 9374).

Authority: 5 U.S.C. appendix 2.

Barbara Wainman,

Assistant Director—External Affairs.

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Alabama Beach Mouse, Baldwin County, AL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Rhonda H. Barber (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed Alabama beach mouse incidental to construction in the City of Orange Beach, Baldwin County, Alabama. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and the Service's preliminary determination that this HCP qualifies as low-effect, categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before April 18, 2022.

ADDRESSES: *Obtaining Documents:* You may obtain copies of the documents online in Docket No. FWS-R4-ES-2022-0016 at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by any of the following methods:

- *Online:* <https://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2022-0016.

- *U.S. mail:* Public Comments Processing, Attn: Docket No. FWS-R4-ES-2022-0016; U.S. Fish and Wildlife Service, MS: PRB/3W, 5275 Leesburg Pike, Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT: Mr. William Lynn, Project Manager, by telephone at 251-441-5868 or via email at william_lynn@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from Rhonda H. Barber (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed Alabama beach mouse (*Peromyscus polionotus*

ammobates) (ABM) incidental to the construction of a single-family home (project) in the City of Orange Beach, Baldwin County, Alabama. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and the Service's preliminary determination that this HCP qualifies as low-effect, categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project

The applicant requests a 50-year ITP to take ABM by converting approximately 0.20 acre (ac) of occupied ABM foraging and sheltering habitat incidental to the construction of a single-family home located on a 1.397-ac parcel in Baldwin County, Alabama. The previous single-family home that was located on the site was destroyed in 2004 by Hurricane Ivan. The site was left fallow, and 0.832 ac of ABM foraging and sheltering habitat formed on the site. The applicant would impact 0.20 ac of the occupied 0.832 ac of ABM habitat in constructing the single-family home. An existing concrete driveway (0.053 ac) will be used in the redevelopment plan to minimize new impacts to the species. The concrete driveway may need to be replaced and, if it is replaced, additional concrete will be used. The applicant proposes to donate a \$2.30-per-square-foot in-lieu fee totaling \$20,037.60 to the Alabama Coastal Heritage Trust (ACHT) for the 0.20-ac impact. ACHT will use the donation to manage, maintain, or acquire ABM habitat within the City of Orange Beach or elsewhere within the range of the ABM.

The applicant also proposes to implement standard minimization and mitigation measures to remove the remaining nonnative vegetation on 0.429 ac on the site and restore the area to ABM habitat. The standard mitigation and minimization measures to be implemented on the site include installing sea turtle-friendly lighting and tinted windows, landscaping with native vegetation, enhancing the frontal dune area, constructing a concrete driveway that will not disperse in a storm surge, implementing refuse-control measures during construction and also requiring that future residents

utilize such measures, and restoring ABM habitat after tropical storms. Free-roaming cats and the use of exterior rodenticide will be prohibited within the parcel. Post-construction ABM habitat on site should total 1.14 ac of the 1.397-ac parcel. The Service would require the applicant to donate the total contribution to ACHT prior to engaging in any activities on the parcel that are associated with the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including land clearing, infrastructure building, landscaping, and the proposed mitigation and minimization measures, would individually and cumulatively have a minor or negligible effect on the Alabama beach mouse and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 40 CFR 1506.6 and 43 CFR 46.305. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take on the species. We will consider all of the above in determining whether the permit issuance criteria of section

10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER0027719 to Rhonda H. Barber.

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

William J. Pearson,

Field Supervisor, Alabama Ecological Service Field Office.
