

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2024-0030 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC is issuing for public comment Draft Supplement 21, Second Renewal, to the GEIS for License Renewal of Nuclear Plants, NUREG-1437, regarding the proposed subsequent renewal of Renewed Facility Operating License Nos. DPR-33, DPR-52, and DPR-68, for an additional 20 years of operation for Browns Ferry. Draft Supplement 21, Second Renewal, to the GEIS includes a preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action.

Based on the NRC staff's (i) review of the SLR application, which includes the environmental report, supplemental documents, and the licensee's responses to the NRC staff's requests for additional information; (ii) consultation with Federal, State, Tribal, and local governmental agencies and consideration of input from other stakeholders; and (iii) independent environmental review as documented in the draft environmental impact statement, the NRC staff's preliminary recommendation is that the adverse environmental impacts of SLR for Browns Ferry are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable.

Dated: May 21, 2025.

For the Nuclear Regulatory Commission.

John Moses,

Deputy Director, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety, and Safeguards.
