

must continue to monitor and maintain records of nitrogen/oxygen levels on a monthly basis, in order to make any necessary adjustments to the GCCS. New York's revised Part 208 adopts the federally mandated electronic reporting requirements, including, certain performance test reports, NMOC emission rate reports, annual reports, Tier 4 emission rate reports, and wet landfilling practices. The test reports are submitted through the EPA web portal, known as the Central Data Exchange (CDX), using the Compliance and Emissions Data Reporting Interface (CEDRI, or the ERT). New requirements for landfill gas treatment were developed within the revised Part 208 in compliance with the federal EG. Landfills are required to develop a site-specific treatment system monitoring plan, and keep records demonstrating effective monitoring of filtration, dewatering, and compression system performance. The treatment system monitoring plan must be submitted as part of a Title V permit application, and the monitoring parameters would be included in the permit as applicable enforceable conditions. Accordingly, the EPA proposes to approve New York's revised State Plan for existing MSW landfills, since it includes all elements required by the amended EG in 40 CFR part 60 subpart Cf.

B. What approval criteria did we use to evaluate New York's revised State Plan?

The EPA reviewed the substance of New York's revised State Plan for approval based on the requirements set forth in 40 CFR 60.24 through 60.26, "Subpart B-Adoption and Submittal of State Plans for Designated Facilities;" 40 CFR 60.23a, "Adoption and submittal of State plans; public hearings;" 40 CFR 60.27a, "Actions by the Administrator;" 40 CFR part 60 subpart Cf, "Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills;" and 40 CFR part 62 subpart A, "General Provisions" for "Approval and Promulgation of State Plans for Designated Facilities and Pollutants."

IV. Incorporation by Reference

In this document, the EPA is also proposing to incorporate by reference NYSDEC rules discussed in section III of this preamble in accordance with the requirements of 1 CFR 51.5. The EPA has made, and will continue to make, these materials available through the docket for this action, EPA-R02_OAR-2020-0431, at <http://www.regulations.gov>, and at the EPA Region II Office (please contact the person identified in the **FOR FURTHER**

INFORMATION CONTACT section of this preamble for more information).

V. What is the EPA's Conclusion?

The EPA has determined that New York's revised State Plan meets all the applicable approval criteria in 40 CFR part 60 subpart Cf, 40 CFR 60.24 through 60.26, 40 CFR 60.23a; 40 CFR 60.27a, and 40 CFR part 62 subpart A. Therefore, the EPA is proposing to approve New York State's section 111(d) revised State Plan for existing MSW landfills, which includes revisions to 6 NYCRR Part 208, "Landfill Gas Collection and Control Systems for Certain Municipal Solid Waste Landfills," and Part 200, "General Provisions," with an effective date of September 4, 2019.

VI. Statutory and Executive Order Reviews

Pursuant to EPA regulations, the Administrator may approve a plan or any portion thereof upon a determination that it meets sections 111(d) and 129 of the Act and applicable regulations. *See* 40 CFR 62.02.

Accordingly, this action, if finalized, would merely approve state law that meets federal requirements, and would not impose additional requirements beyond those imposed by state law. For that reason, this action, if finalized:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735 (Oct. 4, 1993)); and Executive Order 13563 (76 FR 3821 (Jan. 21, 2011));
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255 (Aug. 10, 1999));
- Is not an "economically significant" regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885 (April 23, 1997));
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355 (May 22, 2001));
- Is not subject to requirements of section 12(d) of the National

Technology Transfer and Advancement Act of 1995 (Pub. L. 104-113) because application of those requirements would be inconsistent with the CAA; and

- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629 (Feb. 16, 1994)).

In addition, this proposed rule is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications, and will not impose substantial direct compliance costs on tribal governments, or preempt tribal law, as specified by Executive Order 13175 (65 FR 67249 (Nov. 9, 2000)).

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that

includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the Agency taking?

EPA is announcing receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR [part 174 and/or part 180] for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the request before responding to the petitioner. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petition described in this document contains data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the pesticide petition. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition that is the subject of this document, prepared by the petitioner, is included in a docket EPA has created for this rulemaking. The docket for this petition is available at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is

publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.
