

input to stock assessments. Vessel operations would be under the supervision and control of NEFSC scientific personnel.

The stratified random sampling will occur at depths of 60–100 fathoms and 101–200 fathoms outside of all multispecies closed areas (Closed Area II and Nantucket Lightship Closed Area). Participating commercial *Illex* Squid vessels will employ standardized, scientific towing and sampling protocols. Towing will occur at 100 pre-determined stations at one half hour intervals and a tow speed of 3.5 knots. The codend mesh size of the liners will measure 1 inch (25.4 mm) diamond throughout the codend circumference for a total length of 30 feet.

The target species is *Illex* Squid, however some bycatch may be encountered. Any and all species landed for commercial purposes will be done so in accordance with the respective fishery requirements and landing restrictions. *Illex* length, weight and age data will be recorded along with other physical parameters (bottom temperature, depth, vessel speed and location data). Total catch weight information will be recorded for all other species retained. The survey will commence on or about May 20, 2000, and will continue through May 31, 2000. Timing is critical to survey success, which intends to capture the spring migration of *Illex* onto the continental shelf.

EFPs would be issued to two participating Federally permitted *Illex* Squid vessels to exempt them from the gear restrictions of the Atlantic Mackerel, Squid and Butterfish Fishery Management Plan.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Joanna Davis at the Council (see **ADDRESSES**) at least 5 days prior to the meeting date.

Dated: April 20, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[I.D. 041900A]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) Groundfish Stock Assessment Review (STAR) Panel will hold a work session which is open to the public.

DATES: The STAR Panel for bank rockfish and darkblotched rockfish will meet beginning at 1:00 p.m., May 15, 2000 and continue through May 19 until business is completed. Except for Monday, May 15, 2000, the STAR Panel will meet each day from 8 a.m. to 5 p.m.

ADDRESSES: The STAR Panel for bank rockfish and darkblotched rockfish will be held in The Marilyn Potts Guin Library, Hatfield Marine Science Center, Oregon State University, 2030 Marine Science Drive, Newport, OR 97365.

Council address: Pacific Fishery Management Council, 2130 SW Fifth Avenue, Suite 224, Portland, OR 97201.

FOR FURTHER INFORMATION CONTACT: Dan Waldeck, Fishery Management Analyst; telephone: (503) 326–6352.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to review draft stock assessment documents for bank rockfish and darkblotched rockfish and any other pertinent information, work with stock assessment teams to make necessary revisions, and produce STAR Panel reports for use by the Council family and other interested persons.

Although non-emergency issues not contained in the STAR Panel agenda may come before the panel for discussion, those issues may not be the subject of formal panel action during this meeting. Panel action will be restricted to those issues specifically listed in this notice, and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the panel's intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other

auxiliary aids should be directed to Mr. John Rhoton at (503) 326–6352 at least 5 days prior to the meeting date.

Dated: April 19, 2000.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[I.D. 041700A]

Marine Mammals; Photography Permit (File No. 980–1570)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of application.

SUMMARY: Notice is hereby given that Mr. Clive Lonsdale, Lonsdale Films, 113 Fakenham Road, Great Ryburg, Norfolk NR21 7AQ, United Kingdom, has applied in due form for a permit to take orcas (*Orcinus orca*) and gray whales (*Eschrichtius robustus*) for purposes of commercial photography.

DATES: Written comments must be received on or before May 25, 2000.

ADDRESSES: The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910 (301/713–2289); and

Regional Administrator, Alaska Region, NMFS, 709 W 9th Street, Federal Building, Room 461, P.O. Box 21668, Juneau, AK 99802 (907–586–7235).

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of § 104(c)(6) of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216). Section 104(c)(6) provides for photography for educational or commercial purposes involving non-endangered and non-threatened marine mammals in the wild. NMFS is currently working on proposed regulations to implement this provision. However, in the meantime, NMFS has received and is processing this request as a “pilot” application for Level B Harassment of non-listed and non-
