k. *Description of Request*: As the result of a meeting held on July 3, 2002, Alcoa Power Generating Inc. (APGI or licensee), Duke Energy, Progress Energy, Aquila Energy Marketing Corporation, Commission staff, and representatives from most of the resources agencies with responsibility for water for the States of North Carolina and South Carolina concerning the drought in the project area and reservoir levels in the project reservoirs, there emerged a consensus that it would be prudent on behalf of all users of water on that watershed to reduce minimum releases from the Yadkin Project from 1,400 cubic feet per second (cfs) to 1,200 cfs. Accordingly, APGI requests the Commission grant it a temporary variance in the minimum release requirements from 1,400 cfs to 1,200 cfs until September 15, 2002, or further order of the Commission. On July 5, 2002, the Commission granted the variance request, but reserved authority to require changes to minimum releases associated with the temporary variance based upon comments received from this notice.
