schedule's entry in the list at the end of this notice.

**FOR FURTHER INFORMATION CONTACT:**
Kimberly Richardson, Strategy and Performance Division, by email at *regulation_comments@nara.gov* or at 301–837–2902. For information about records schedules, contact Records Management Operations by email at *request.schedule@nara.gov* or by phone at 301–837–1799.

**SUPPLEMENTARY INFORMATION:**

**Public Comment Procedures**

We are publishing notice of records schedules in which agencies propose to dispose of records they no longer need to conduct agency business. We invite public comments on these records schedules, as required by 44 U.S.C. 3303a(a), and list the schedules at the end of this notice by agency and subdivision requesting disposition authority.

In addition, this notice lists the organizational unit(s) accumulating the records or states that the schedule has agency-wide applicability. It also provides the control number assigned to each schedule, which you will need if you submit comments on that schedule.

We have uploaded the records schedules and accompanying appraisal memoranda to the *regulations.gov* docket for this notice as ''other'' documents. Each records schedule contains a full description of the records at the file unit level as well as their proposed disposition. The appraisal memorandum for the schedule includes information about the records.

We will post comments, including any personal information and attachments, to the public docket unchanged. Because comments are public, you are responsible for ensuring that you do not include any confidential or other information that you or a third party may not wish to be publicly posted. If you want to submit a comment with confidential information or cannot otherwise use the *regulations.gov* portal, you may contact *request.schedule@nara.gov* for instructions on submitting your comment.

We will consider all comments submitted by the posted deadline and consult as needed with the Federal agency seeking the disposition authority. After considering comments, we may or may not make changes to the proposed records schedule. The schedule is then sent for final approval by the Archivist of the United States. After the schedule is approved, we will post on *regulations.gov* a ''Consolidated Reply'' summarizing the comments,

responding to them, and noting any changes we made to the proposed schedule. You may elect at *regulations.gov* to receive updates on the docket, including an alert when we post the Consolidated Reply, whether or not you submit a comment. If you have a question, you can submit it as a comment, and can also submit any concerns or comments you would have to a possible response to the question. We will address these items in consolidated replies along with any other comments submitted on that schedule.

We will post schedules on our website in the Records Control Schedule (RCS) Repository, at *https:// www.archives.gov/records-mgmt/rcs,* after the Archivist approves them. The RCS contains all schedules approved since 1973.

**Background**

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.

**Schedules Pending**

1. Department of Defense, Defense Threat Reduction Agency, Exchanged Atomic Information Files (DAA–0374–2020–0008).

2. Department of Transportation, Federal Aviation Administration, Records of the Office of Aerospace Medicine (DAA–0237–2022–0018).
3. Department of the Treasury, Internal Revenue Service, Governance Board Policy Records (DAA–0058–2023–0001).
4. Central Intelligence Agency, Agency-wide, Interim Training Performance Report Records (DAA–0263–2023–0004).
5. Court Services and Offenders Supervision Agency for the District of Columbia, Pretrial Services Agency, Justice and Community Relations Records (DAA–0562–2021–0031).

**NATIONAL SCIENCE FOUNDATION**

**Agency Information Collection Activities: Comment Request; Grantee Reporting Requirements for the Industry-University Cooperative Research Centers (IUCRC) Program**

**AGENCY:** National Science Foundation.
**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

**DATES:** Written comments on this notice must be received by April 11, 2023 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

**FOR FURTHER INFORMATION CONTACT:**
Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite E7400, Alexandria, Virginia 22314; telephone (703) 292–7556; or send email to *splimpto@nsf.gov.* Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Grantee Reporting Requirements for the Industry-University Cooperative Research Centers (IUCRC) Program.

*OMB Number:* 3145–0088.

*Expiration Date of Approval:* August 31, 2023.

*Type of Request:* Revision to and extension of approval of an information collection.

*Proposed Project:* The IUCRC program provides a structure for academic researchers to conduct fundamental, pre-competitive research of shared interest to industry and government organizations. These organizations pay membership fees to a consortium so that they can collectively envision and fund research, with at least 90% of Member funds allocated to the direct costs of these shared research projects.

IUCRCs are formed around research areas of strategic interest to U.S. industry. Industry is defined very broadly to include companies (large and small), startups and non-profit organizations. Principal Investigators form a Center around emerging research topics of current research interest, in a pre-competitive space but with clear pathways to applied research and commercial development. Industry partners join at inception, as an existing Center grows, or they inspire the creation of a new Center by recruiting university partners to leverage NSF support. Government agencies participate in IUCRCs as Members or by partnering directly with NSF at the strategic level.

Universities, academic researchers, and students benefit from IUCRC participation through the research funding, the establishment and growth of industry partnerships, and educational and career placement opportunities for students. Industry Members benefit by accessing knowledge, facilities, equipment, and intellectual property in a highly cost-efficient model; leveraging Center research outcomes in their future proprietary projects; interacting in an informal, collaborative way with other private sector and government entities with shared interests; and identifying and recruiting talent. NSF provides funding to support Center administrative costs and a governance framework to manage membership, operations, and evaluation.

Sites within Centers will be required to provide data to NSF and/or its authorized representatives (contractors and/or grantees) annually—after the award expires for their fiscal year of activity—for the life of the Phase I, and if applicable, Phase II, and Phase III award(s).

Information collected are both quantitative and descriptive; they will provide managing Program Directors a means to monitor the operational and financial states of the Centers and ensure that the award is in good standing. These data will also allow NSF to assess the Centers in terms of intellectual, broader, and commercial impacts that are core to our review criteria. Finally, in compliance with the Evidence Act of 2019, information collected will be used in satisfying congressional requests, and supporting the agency's policymaking and reporting needs.

In addition to the agency's annual report requirement, Principal Investigators (IUCRC Center and Site Directors) of the awards are required to provide the following information:

*Center-Related Information:*

• Center Data Reporting

○ A comprehensive annual survey collecting information on structure, funding, membership, personnel, and outcomes of the Center during a given reporting period. A Center must submit data for each fiscal year no later than September 30 of each year of operation, as well as after the award expires to describe its final year of activity.

Certification of Membership

○ A list of members and membership fees collected by the Center and certified by the respective university's Sponsored Research Office (SRO), Total Program Income collected during the reporting period, In-kind Contributions during the reporting period, Allocation and Expenditures of each Site's research funds by project

Site Research Projects Summary

○ A list all projects in which the Site participated, including each project's goals; research tasks; key milestones, metrics/deliverables; developing results or outcomes; project budgets; and personnel.

• Assessment Coordinator Report

○ An independent assessment of the annual Center activities (this report is done by an independent evaluator, and uploaded by the Principal Investigator as part of the NSF annual reporting requirement)

*Logistical Information:*

• IUCRC Directory

○ IUCRCs must provide accurate and current information for the online IUCRC directory. The IUCRC program helps awardees to get their information updated on the website.

*Optional:*

• IUCRC Impact Stories for Public Distribution

IUCRCs are highly encouraged to submit information on their emerging research highlights and significant breakthrough stories to NSF to showcase their impact to the public and industry (see *https://iucrc.nsf.gov/centers/achievements/*) including new products, technology creation and/or enhancements, intellectual property of significant commercial relevance, and major improvements in cost-savings, efficiency, sustainability, productivity, and job growth.

Not only do these data provide valuable information on program activities, products, outcomes, and impact, they also help to paint a detailed longitudinal view of the program, provide insights for benchmarking individual Center performance, advancing industry-university engagement approaches, strengthening future workforce, and contribute to the Nation's research and technology ecosystem.

*Use of the Information:* The information collected is for internal use by NSF, sharing with the US public, congressional requests, and for securing future funding for continued IUCRC program maintenance and growth. Survey data is collected and published at *https://iucrcstats.org,* made possible through NSF grant award 1732084.

*Estimate Burden on the Public:* Estimated at 16 hours per award for 225 sites for a total of 3,600 hours (per year).

*Respondents:* IUCRC Awardees (Academic Institutions).

*Estimated Number of Respondents:* One from each IUCRC site (estimated: 225 active sites/year).

*Comments:* Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: February 7, 2023.
